ASSEMBLY INSTRUCTIONS

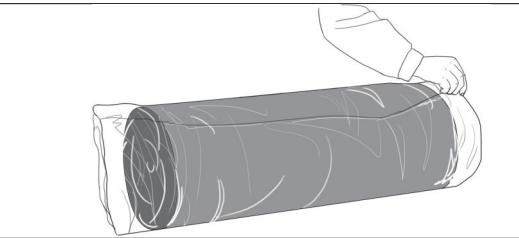

Assembly is simple and beginner-friendly.
No tools are required for assembly.
Let's get started!

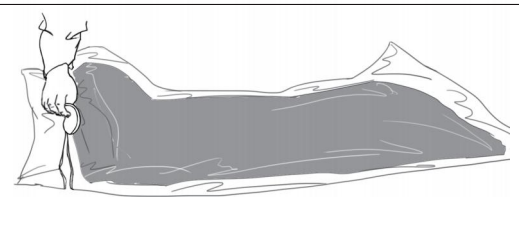

Step1： **Unpack after moving the product to the living room area.**

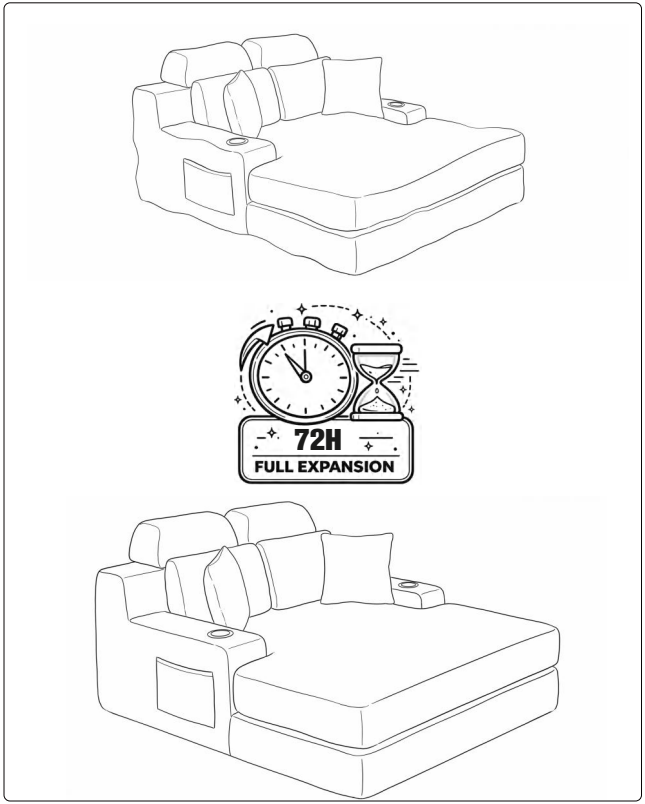

Step2： **Peel off the packaging film. Do not cut with a knife to avoid scratching the sofa.**

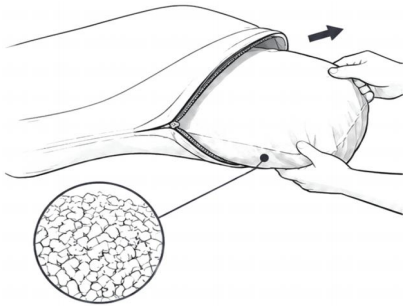

Step3： **Unpack slowly to prevent the compressed sofa roll from springing open suddenly.**

Step4： **Allow 72 hours for natural expansion.**

1

Remove the inner core from the back cushion.

2

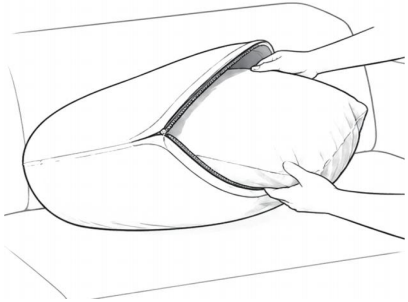

Beat repeatedly to fluff it up.

3

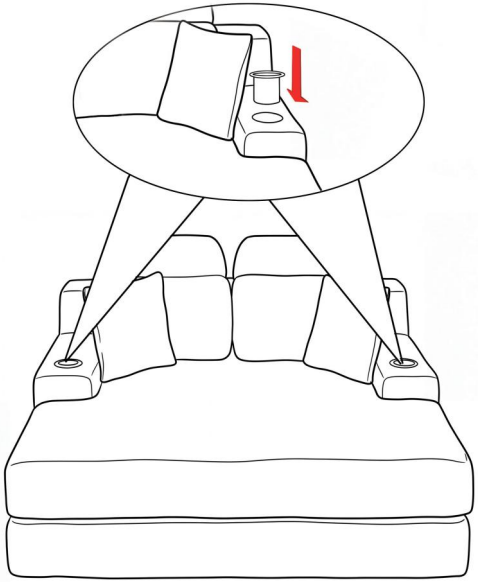

Allow to sit for 72 hours for full recovery.

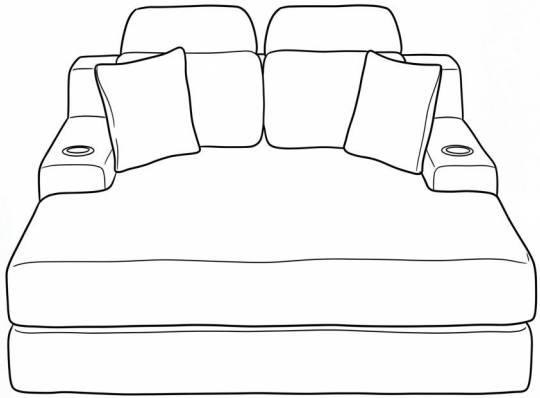

4

Insert the fully rebounded inner core into the back cushion cover.

Insert metal cup holder into armrest cup slot.

Care & Maintenance

1) Avoid contact with hot objects, such as boiling water and electric irons, to prevent deformation and damage.
2) To avoid scratches, such as knives and scissors, prevent them from getting cut.
3) Avoid sun light Shining It directly so as to prevent cover layer from changing color and aging earlier.
4) If the fabric becomes stained, it can be cleaned by either hand washing or machine washing.
5) If the sofa is smelling,please try to air it 72 hours and the smell will give away.
6) To avoid pilling or deformation of the fabric,do not use violent scrubbing or brushes.
7) Please use the specified detergent to wipe and avoid using bleach or bleach containing chlorine prevent fading and aging of the fabric
