Compression sofa instructions(Universal version)

NOTE:

1. Lay the folded sofa flat on the floor after removing it from the carton.

2.Take out the plastic bag. Steer clear of scratching the cloth with sharp objects like knives or other sharp objects.Cut open the plastic bag and protective film with the membrane-cutting knife that comes with the package. Please take note that it must not be accidentally consumed and should not be provided to youngsters.

3. The sofa will rapidly restore its shape once the sealed bag is opened.In order to help the sofa regain its original elasticity, make sure the space is dry and well-ventilated.Over 90% of the sofa's initial condition should be restored after 72 hours.

4. The fabric cover may have noticeable creases when initially opened due to its compacted condition.You can use an iron to flatten it more quickly.

5. To prevent mold from growing due to inadequate ventilation, please do not leave the floor wet for extended periods of time while in use.

6. Please use a professional fabric cleaner to remove any dirt or oil stains that may have appeared during use.

7. Do you have any questions?Please get in touch with us; we will be happy to help you further within a day.
