- Read instructions carefully and turn electricity off at main circuitbreaker panel before installation.
- Before installation, make sure all parts are included. If any part is missing or damaged, do not attempt to assemble, install or operate the product.

INSTALLATION STEPS

Step1: Installation Of Light Stand

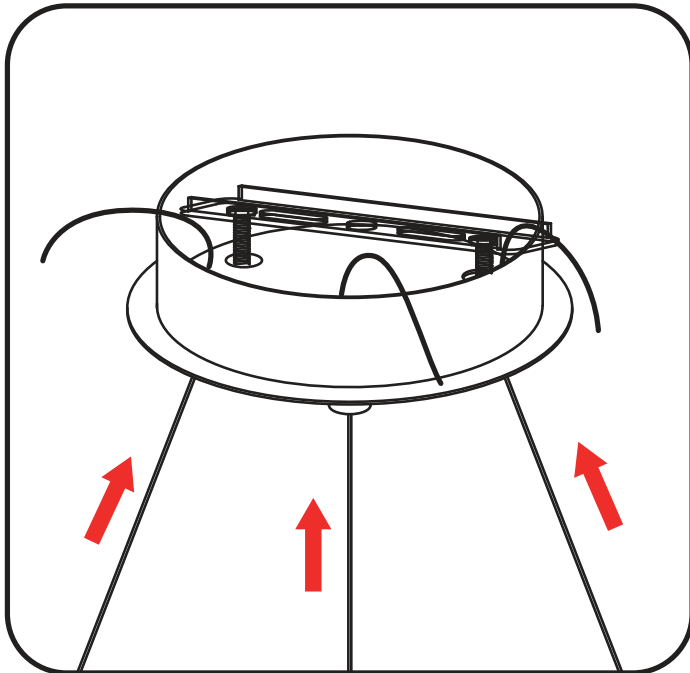

Fix the mounting plate to the ceiling.

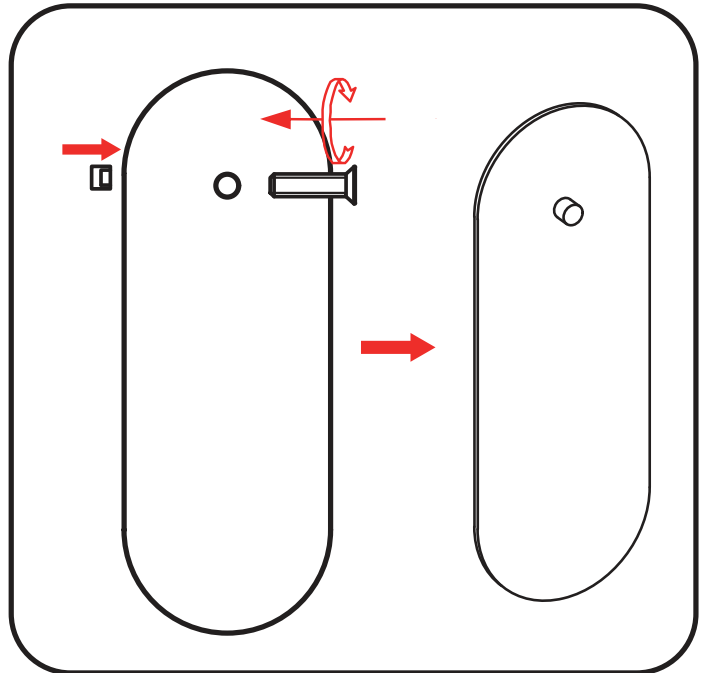

Connect the wires. Feed the ceiling canopy over the mounting plate and secure it with screws.

Step2: Installation Of Light Body

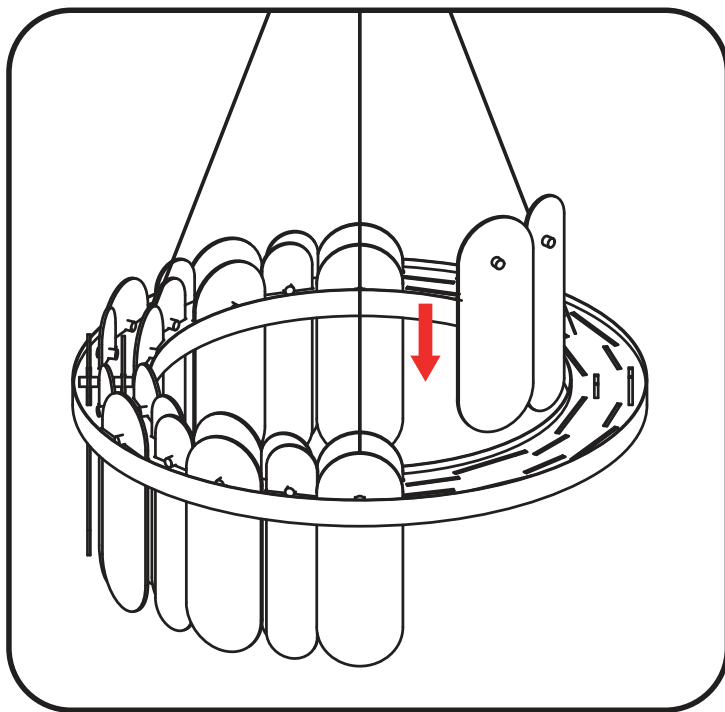

Adjust the steel wire rope to the required length.

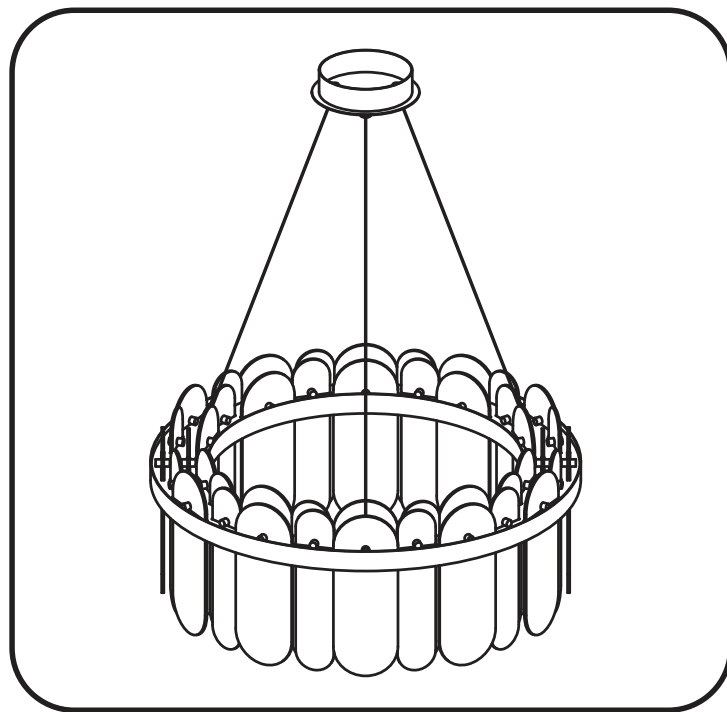

Install the set screws onto the glass panels, then insert the panels into the corresponding sized holes.

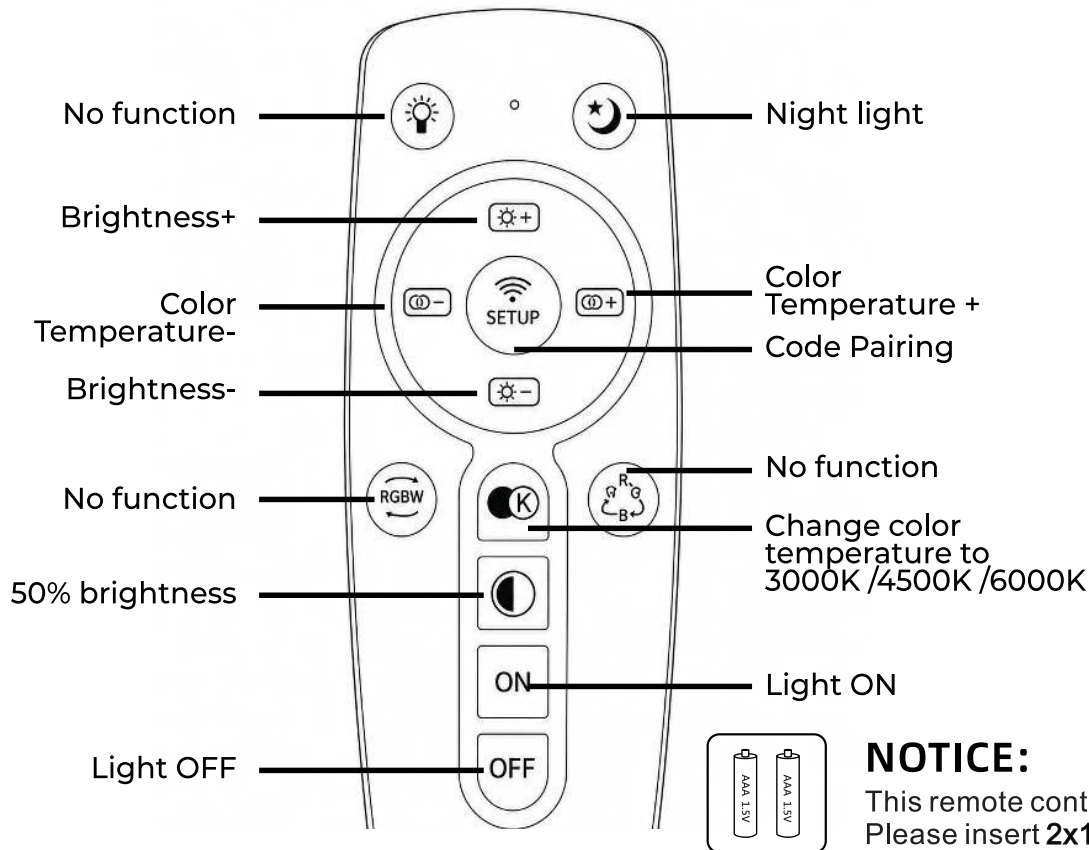

Step3:Installation of Chandeliers

Pass the lamp holder wire through the hanging light stand and lock it with the hanging chain head.

Completed

NOTE:

If remote control no function, please match code as below:

Turn on the wall light switch, quickly long press the "SETUP" key within 5 seconds. The light flash, means the code matching is successful. Otherwise, turn off the main power supply of the lamp and then reoperate this step until the light flashe and the code matching is successful.
