STP1

Must step:A First slide the steel ball to the front of the cabinet's outer slide.

STP2

B: Insert the inside railway course on both sides of drawer on the outside railway course of cabinet at the same time. Two people must put the drawer flat and insert it slowly and synchronously. After inserting it to the end, pull it out slowly twice, the slide track works normally. If it works fails, please follow the slide track removal instructions, open it and reinstall it.
