PRODUCT DESCRIPTION

Chenille fabric. Exceptionally soft, plush, and skin-friendly to the touch. The surface pile offers visual and tactile warmth, significantly enhancing seating comfort and a cozy feel.

Solid wood frame, highlighted by the bent design of the rear legs and protective glides on each foot. The bent legs offer strong visual appeal and improve structural mechanics. The glides protect the wood from wear and add a refined detail.

Ergonomic curved backrest: The backrest's arc naturally follows the spine's curve for just-right support.

High-density foam filling. The seat and backrest are plumply cushioned, providing immediate soft support and proper resilience. Effectively alleviates pressure from prolonged sitting, ensuring comfort during meals or short breaks.

Structural aesthetic of bent legs: The leg bend isn't merely decorative; it creates visual tension and a sense of lightness while ensuring chair stability.

EXPLODED VIEW

Every screw must be fully tightened.
If the chair makes unusual noise
