! ATTENTIONS

Since it is easy to lose many small accessories during the installation, please collect all the screw accessories before the assembly is completed

To better align the screws for practical situations, do not fully tighten screws initially

Please reinforced the Gazebo and do not use in heavy winds or inclement weather

Make sure all screws are tightened before use and check all screws, buckles and straps every 90 days

Two or more people are required for assembly

Please clear the snow off the roof in time for the heavy snowfall and do not use it

Please take care of the screws and contact the after-sales service if there is any problem with the installation or parts.

Permanent Installation Examples

Our supporting expansion screws can only be used for cement floors, customers need to bring their own special screws if they are used for wood floors

Please take care of the screws and contact the after-sales service if there is any problem with the installation or parts.
