

ASSEMBLY INSTRUCTIONS

Insert the C-shaped steel rod through the hole in the circular steel base as shown in the figure.

Insert the pin through the hole at the top of the stand.

Attach the clip hook to the pin.

SAFETY INSTRUCTIONS TO AVOID FALLING

- Weight Limit 250 LBS
- The stand is intended to be used by one person at a time.
- Bubble Chair and stand must be used with all provided parts. Ensure that all parts are installed according to instructions and inspected for damage before use.
- Ensure that all the hardware is securely installed before use.
- Do not jump, stand, or twist in chair.
- Chair and stand are designed for minimal swing motion. Use care when getting in and out of chair. If using stand, ensure that chair is facing forward and do not cause chair to swing outside base area of stand, as shown to the right.
