

# Garden Bed

- This outdoor planter has a built-in water reservoir and a pre-formed overflow hole to ensure your plants have consistent moisture without being oversaturated.
- Avoid using garden soil or top soil for container planting. It's often too dense and restricts air circulation. A potting mix is strongly recommended and will ensure better plant growth.
- Rinse clean with a garden hose; for a deeper clean, use a power washer.
- 15-year warranty residential use, 5-year warranty commercial use.

*Polyresin Planter*  
*UV Protected*
