Base Type: E12

Light Source Included: NO

Voltage: 120VAC

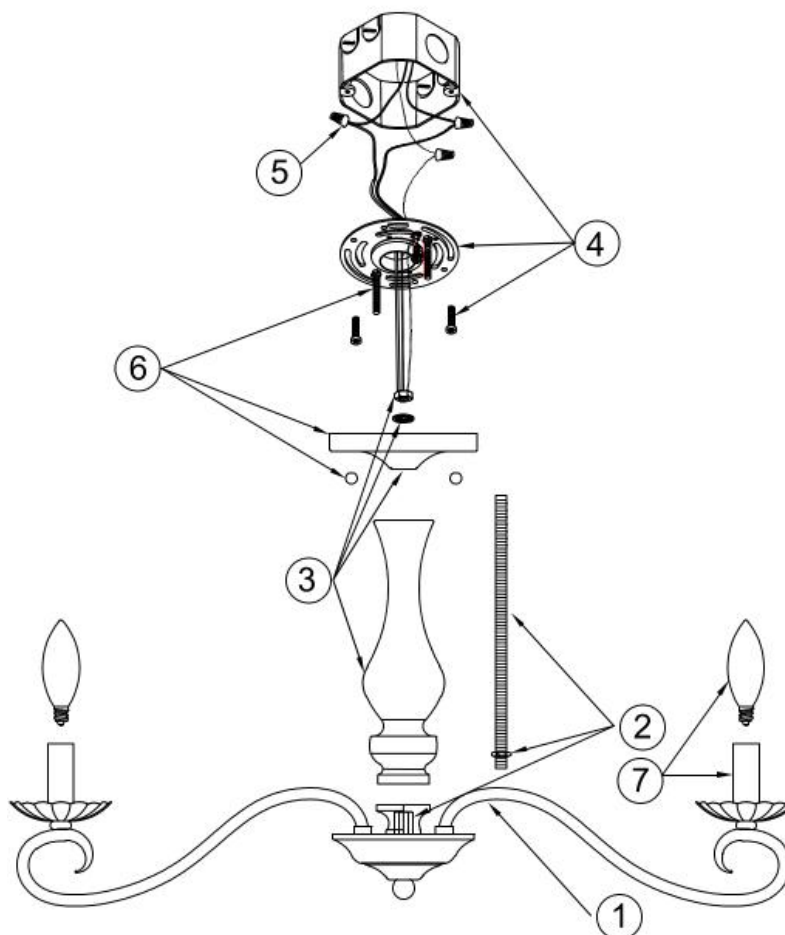

Wattage: 60W

Package includes

1 x Flush Mount Light

1 x Accessories Kit

1 x User's Manual

Flush Mount Installation Instructions

1. Unfold the curved arms and arrange them evenly around the circumference, then adjust them to the same horizontal level.
 2. Thread the main power cord and ground wire through the threaded pipe, then screw the pipe into the socket at the top of the lamp body and secure it with a nut.
 3. As shown in the diagram, thread the gourd-shaped central cord, canopy and washer over the threaded pipe and into the top metal cover of the fixture. Secure it with the hanging ring.
 4. Attach the mounting plate to the electrical junction box using supplied mounting screws.
 5. Connect the fixture wires (neutral, live and ground wire) and the wires reserved on the junction box with wire nuts respectively, then insulate all connections with electrical tape and neatly tuck wires into the junction box.
 6. Place the canopy onto the mounting plate and tighten the cap nut to fix the canopy in place.
 7. Assemble the bulbs (not included). Turn on the power and check if the light bulb works properly.
- Installation is complete.

Note: please use this product accordingly to its intended purpose, do not retrofit or remodeling the product. The warranty does not cover if the failure is caused by the third party product, or natural disasters.
