

LUNARIA PENDANT

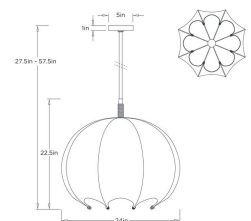

DSC17

H: 27.5 IN

Dia: 24 IN

Luminous and serene, the Lunaria Pendant is defined by its softly billowed, moon-like canopy. Crafted from ivory faux vellum, the shade captures and diffuses light to create a gentle, celestial radiance throughout the room. Each subtle point terminates in a tailored wrapped metal detail, introducing a refined structural accent that contrasts beautifully with the organic curvature of the form. The balance of warm materiality and sculptural detailing lends depth, texture, and a quiet yet distinctive presence to the space.
