For fixing the socket

1. Screw installation method

When the screw is installed, please keep it in line with the board, and do not tighten it too tightly

2. Check the Nut direction

This direction of the marked nut is consistent with the direction in which the screw is inserted

3. Installation on the board with fixing screws

3. Rotate slowly until it stops

Step 31

For vanity table with light

If your vanity table include a LED mirror light, please test the light in this step. Touch the switch button on the mirror to turn on the mirror light, click the switch button to change the color of the light, and long press the switch button to adjust the brightness. If the switch button is not sensitive, you can check whether the touch switch is tightly attached to the mirror back as shown in the diagram. If it is not tightly attached, please use your fingers to press the touch switch to the designated position and check if the connecting wire is OK.
