

INSTRUCTION MANUAL

Please follow the steps below to install the wall mirror.

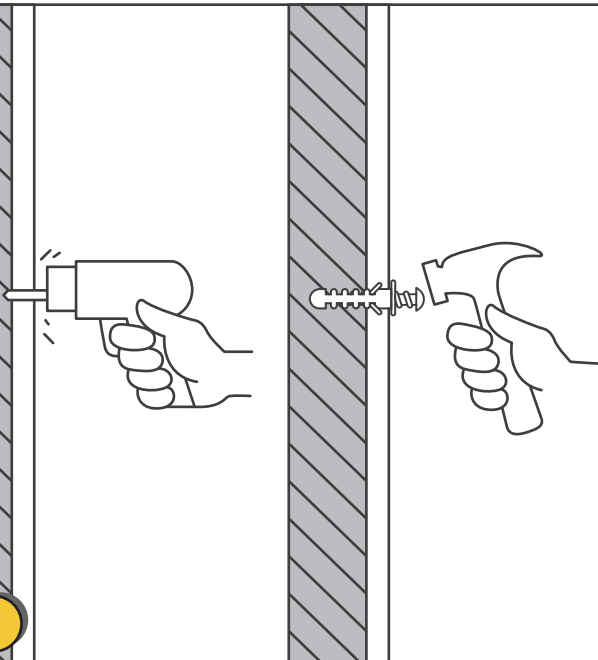

STEP 1

Check the package and make sure it is not damaged before opening it.

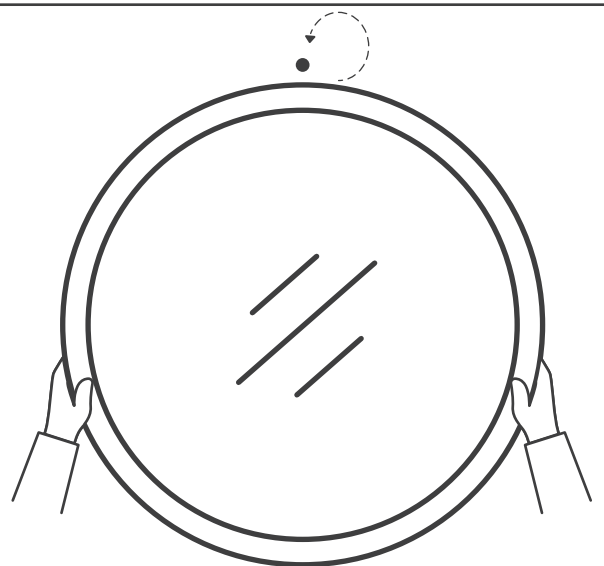

STEP 2

Open the package and check that the mirror surface is in good condition and that the parts are complete.

STEP 3

Select a suitable fixing point on the wall and drill a hole.

STEP 4

Drill the screws into the marked point and hang the mirror on the wall.

Notice

- ① Hand-made may allow some glue leaked, use toothpaste will clean it easily.
- ② The mirrors is relatively heavy, better to hang it cooperation with others.
