

Installation steps:

1. Attach the mounting strap to the outlet box using the mounting screws.
2. Pull out the source wires from the outlet box. Make wire connections using wire nuts as follows:
 - Connect the white wire from the fixture to the white wire from the power source.
 - Connect the black wire from the fixture to the black wire from the power source.
 - Attach the fixture grounding wire to the mounting strap with the green grounding screw, and then connect it to the house grounding wire with a wire nut.
 Carefully tuck the wires back into the outlet box.
- 3-4. Place the canopy cover on the junction box and fasten it with screws
5. Install the bulbs. (Bulb not included)
- 6-7. Clamp the lampshade into the lamp holder

Safety Instructions:

- To avoid fire, shock, and serious personal injury, follow all instructions carefully.
1. Do not install or use the light fixture if any part is missing or damaged.
 2. To avoid possible electrical shock be sure electricity is turned off at the main fuse or circuit breaker box before wiring.
 3. Make certain no bare wires are exposed outside the wire connectors.
 4. All wiring must conform to national and local electrical codes.
 5. Follow the recommended instructions for the proper method of wiring your new light fixture. If you feel you do not have enough electrical wiring knowledge or experience, have your light fixture installed by a licensed electrician. Any electrical work not described in this manual should be performed by a licensed electrician.
