Care & Cleaning:

- Avoid exposing furniture directly to sunlight or heating and air conditioning outlets.
- Exposure to sunlight or heating and air conditioning outlets will fade/damage leather.
- Wipe gently with a damp soft cloth to remove dust, dirt and any buildup.
- Specially formulated products such as Leather Master's leather cleaner and conditioner can be used to rejuvenate fine leather surfaces. We recommend spot testing a small area before applying it to the entire leather surface.

Cuidado y limpieza:

- Evite exponer el mueble directamente al sol o ponerlo cerca de un sistema de calefacción o de climatización.
- El hacerlo puede provocar la decoloración y la deterioración del cuero.
- Para eliminar el polvo, la suciedad y otros residuos, frote suavemente con un paño suave húmedo.
- Se pueden utilizar productos especialmente formulados, como el limpiador y acondicionador de cuero de Leather Master, para rejuvenecer las superficies de cuero fino. Recomendamos realizar una prueba puntual en un área pequeña antes de aplicarlo a toda la superficie del cuero.
