Using Camlocks

Connect the male camlock as directed in the assembly instructions using a screwdriver.

1 DO NOT OVER TIGHTEN

Push the male camlock into the entry hole.

2

Insert the female camlock as shown in the instruction.

Note: ensure that the arrow on the top of the camlock points toward the entry hole for the male camlock.

3

Turn the female camlock clockwise with a screwdriver.

You should feel a click when the camlock is locked in place.

The joint is now secure.

TIPPING RESTRAINT HARDWARE

Note: We have included two Tipping Restraint Hardware set for this Unit. When properly installed, this restraint can provide protection against the unexpected tipping of the Unit due to small tremors, bumps or climbing. We strongly recommend mounting this hardware to a wall stud and your Unit.

Note: You must install the Tipping Restraint Hardware with the unit in use to prevent any accidents or damage to the unit.
