FEATURES:

Taking time-honored shapes and turning them into ultramodern representations of their former profiles is a talent the design team at Currey & Company have proven time and time again. Case in point is the Ogden Orb chandelier, which exhibits the globe shape for which traditional chandeliers are known but with such minimalistic lines, it becomes one of our most versatile fixtures. The intermingling of chinois antique gold leaf and black finishes adds an elegant touch to this chandelier, which measures 36" in diameter by 38.75" high.
