

## A PERSONAL MESSAGE FROM OUR CEO

When I shop, I am not just buying a product or service. I purchase why that brand focuses on what they do, what their corporate philosophy is, the quality of their products, and whether or not my personal core values align with that brand's vision. When I don't feel great about a company's brand, products, or how I'm being treated as a customer, then I know they are not delivering on what matters most: exceeding the customer expectation by delivering happiness with their products, quality, and service.

This primary focus is what drives our culture at Team SkyBound. For supporting our vision, we would like to personally thank you for trusting us to deliver happiness to you and your family!

-Kiki (CEO) & Team SkyBound

*"Nurturing the inner-child in all of us by  
uniting communities worldwide and  
promoting an active lifestyle."*

# CURVED POLE TRAMPOLINE NET

ASSEMBLY AND INSTALLATION MANUAL

[www.TrampolinePartsCenter.com](http://www.TrampolinePartsCenter.com)

# ASSEMBLY INSTRUCTIONS

PLEASE KEEP THIS MANUAL AS IT CONTAINS IMPORTANT INFORMATION

## IMPORTANT SAFEGUARDS

Always enter the enclosure only through the door of the net. High winds increase the chance of a trampoline with enclosure being blown over. Always secure your trampoline by using an anchor kit. Adequate overhead clearance is essential. A minimum of 24 ft from the ground level is recommended. Provide clearance for wires, trees, and other obstacles. It is recommended for at least 2 able bodied adults to setup the trampoline net.

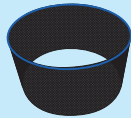

## CARE AND MAINTENANCE

While every attempt is made to ensure the highest degree of quality and protection in all equipment, we cannot guarantee complete exemption of injury. The user assumes all responsibility of injury due to use of this equipment. All merchandise is sold on this condition, and all equipment is used at the consumers risk.

## LIABILITY

Always inspect your trampoline and enclosure before each use and regularly replace any worn, defective, or damaged parts.

Read the following instructions and warning to ensure the trampoline is safe to use and lasts as long as possible, follow all assembly and maintenance instructions at all times.

**CURVED POLE  
ENCLOSURE NET**

**ROPE x8**

**TOOLS NEEDED:**  
Spring Tool

## REMOVING THE OLD NET

### STEP 1

Use a spring tool to unhook one spring and remove the net from the V-Ring and then reattach the V-Ring to the frame.

### STEP 2

Repeat steps 1 and 2 for the rest of the springs to remove the remaining parts of net.

*Note: The mat must be attached to the frame of the trampoline for safety reasons.*

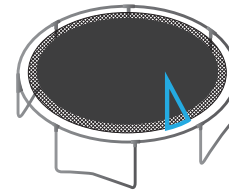

### STEP 3

Once the bottom of the net is removed from the Frame, remove the top of the net by untying the Straps and then removing the Thumbscrews from the Pole Caps. If necessary, use a ladder to reach the top of the Enclosure Pole.

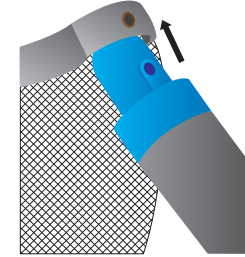

# ASSEMBLY INSTRUCTIONS

## ATTACHING THE TOP OF THE NET

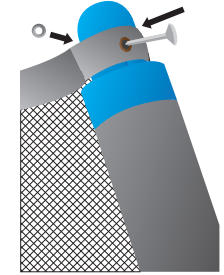

### STEP 1

Start by finding the Net Door and placing it in the middle of the Trampoline Legs.

### STEP 2

Attach the top of the net to the poles by placing the Straps over the Pole Caps. Do not tie the straps yet.

### STEP 3

Secure the Straps to the Pole Caps by putting the Thumbscrew through the Grommet and Pole Cap and securing by putting the Nut on the end of the Thumbscrew.

## ATTACHING THE BOTTOM OF THE NET

### STEP 1

Start by attaching the hole that is closest to the Net Door to the frame.

### STEP 2

Using a spring tool, unhook the spring that corresponds to the previously mentioned hole.

### STEP 3

Put the V-Ring of the mat through the hold of the net and reattach the spring to the frame.

### STEP 4

Repeat this process for the remaining holes until your net is completely attached to the trampoline.
