Product Description: Minimalist and modern, the St. Armand round cocktail

table is filled with character. Crafted of Acacia Solid Wood in a light rustic finish, it features a lightly-scaled metal base with spherical stretchers at the top and bottom. From outside leg to outside leg, the table measures 37 inches wide.

Collection Features: Endlessly functional tables offer an easy way to change the look of your room. It's the little details that make all the difference.

Status: Active

Finish: Light wood finish with metal base. Distressing includes tiger scratches.

Features: Levelers

Outside leg to outside leg: 37

Bottom of rail to floor: 2.4

Light wood finish top

Metal base

Material: Acacia Solids and Metal

Finish Construction: Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are

used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
