

ASSEMBLY INSTRUCTION

FLOATING WALL SHELF

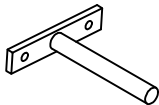

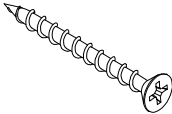

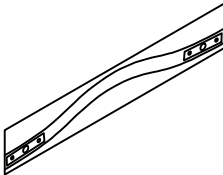

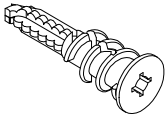

Packing list

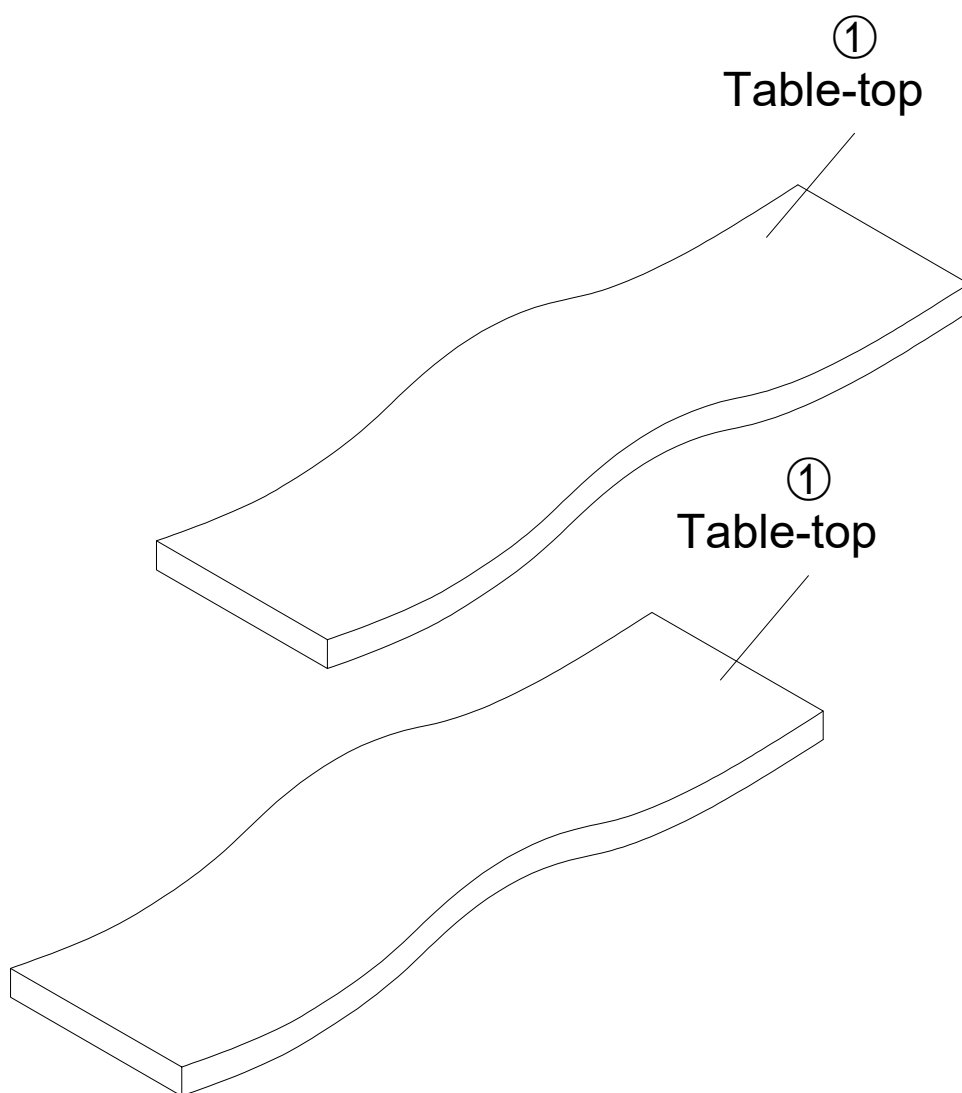

Please check the contents to make sure you have received all components and accessories before installing.

Before you start:

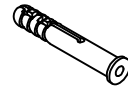

For solid walls (brick or concrete), use part A.

For lightweight walls (plasterboard or hollow), use part E.

A×8  6x40mm	B×4  70x14x78mm	C×8  4x45mm	D×2  2x45mm	E×8  M14x40
--	--	--	---	--

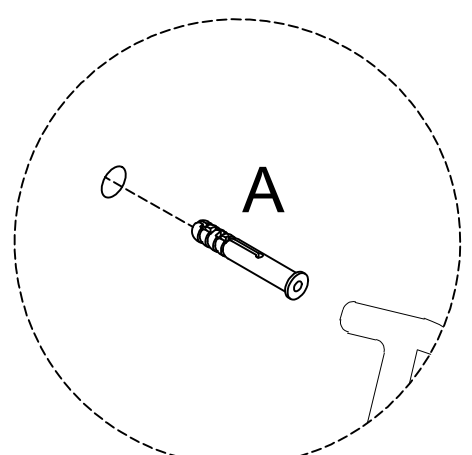

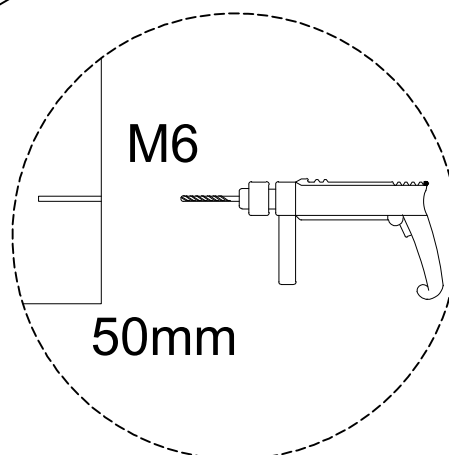

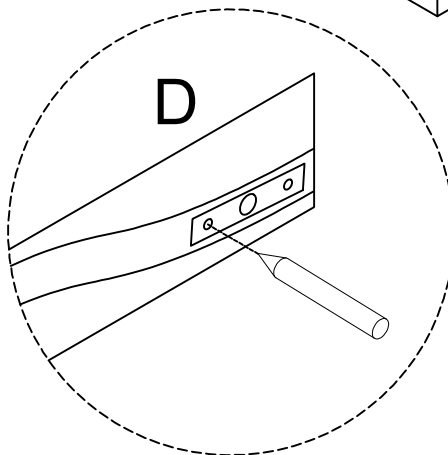

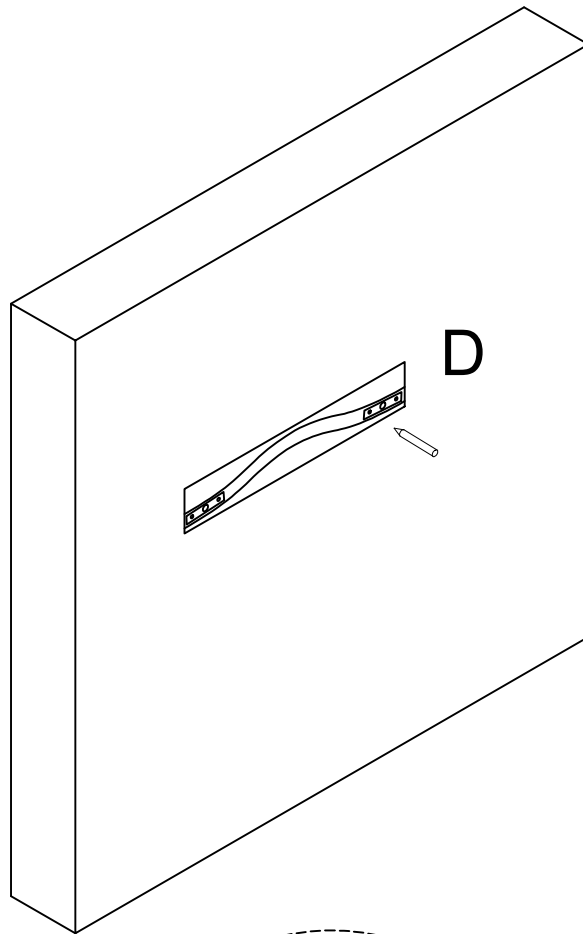

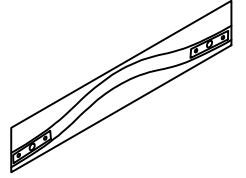

A×4

6x40mm

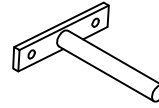

Dx1

Step 1.

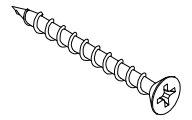

Place part “D” against the wall and keep it level. Mark the hole positions with a pencil, then remove part “D”. Drill holes at the marked spots with an electric drill, and use a hammer to tap part “A” into the holes until it is flush with the wall surface.

Bx2

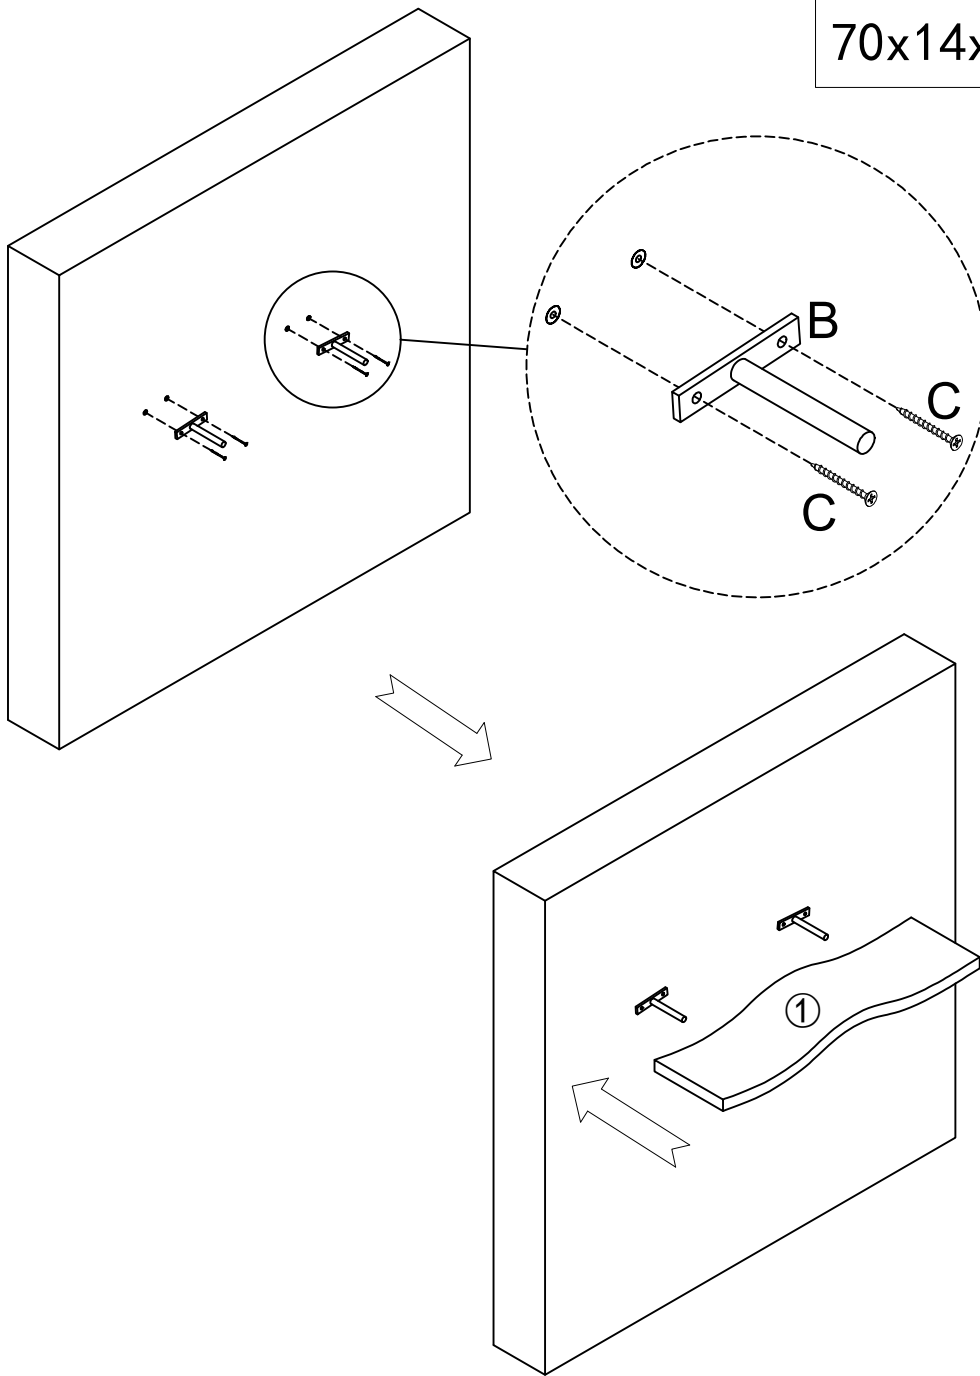

70x14x78mm

Cx4

4x45mm

Step 2.

Secure bracket B tightly to the wall using screws C.
Mount the floating shelf onto bracket B.
