12	Instruction manual	1

INSTALLATION STEPS

Schematic diagram of
Bottom plate

1. Make grooves according to the dimensions in the drawing,
and bury hot and cold water inlet pipes.

2. After the concrete is dry, punch eight 6mm expansion screw
holes according to the dimensions in the drawing, and
respectively punch eight screws.

3. Insert the decorative cover
into the main body straight
pipe, and the height shall be
subject to the best installation.

4. Screw the bottom plate into
the main body straight pipe;

5. Connect water inlet nuts to
hot and cold water pipes
according to the red and blue
labels. Please pay attention to
the outlet direction of the faucet,
insert the bottom plate into the
corresponding expansion screw.

6. Tighten the eight expansion
screws.

INSTALLATION DIMENSION

7. Insert the curved pipe into the heighten straight pipe and tighten the M5 screw.

8. Screw the nut of the water inlet pipe into the corresponding straight pipe interface, and tighten the M5 screw after adjusting the outlet direction of the faucet.

9. Screw the rain shower head into the curved pipe interface, and screw the shower hose into the bracket to connect the hand shower. The faucet is installed.

CLEANING CARE

In order to keep the appearance of product clean, bright and good performance, please take care of the product as follows;

1. Rinse with water only and dry with soft cotton cloth;
2. Use mild liquid and colorless glass cleaner to remove surface dirt and scale film, or use polish without abrasive effect;
3. Do not use abrasive detergent, polish, emery cloth, paper towel or scraper, etc;
4. Do not use acid cleaner, or cleaner and soap with insoluble gran etc;
5. In the process of use, mud may accumulate in the bubbler and make the water flow show, The bubbler can be unscrewed, rinsed with water, and then installed back in place.
