INSTALLATION INSTRUCTIONS

Please read carefully and save these instructions as you may need them a later date.

CAUTION

WARNING: Risk of Fire. Consult a qualified electrician to ensure correct branch circuit conductor. Turn off the main power at the circuit breaker before installing the fixture in order to prevent possible shock.

GENERAL

All electrical connections must be in accordance with local and National Electrical Code (N.E.C.) standards. If you are unfamiliar with proper electrical wiring connections obtain the services of a qualified electrician.

Remove the fixture and the mounting package from the box and make sure that no parts are missing by referencing the illustration.

ASSEMBLY AND INSTALLATION

1. Remove decorative nuts (10) from threaded rod on mounting strap (5), save decorative nuts (10) for later use.
2. Attach mounting strap (5) to outlet box (1) using the box screws (6).
3. Connect the electrical wires as shown in Fig. 2, making sure that all wire nuts (8) are secured. If your outlet box (1) has a ground wire (4. green or bare copper), connect the fixtures ground wire (4) to it. Otherwise, connect the fixture ground wire (4) directly to the mounting strap (5) using the ground screw (6) provided. After wires are connected, tuck them carefully inside the outlet box (1).
4. Align hold in center of canopy (9) with threaded rod and push up. Secure canopy (9) with decorative nuts (10) previously removed.
5. Carefully lift the shade (11) to align with the canopy (9), align the slots in the canopy (9). Engage the slots and then firmly tighten.

INSTALLATION IS NOW COMPLETED
