

# Seta

Designed by Caloroso studio

Seta combines a circular ash wood top with delicate grain and a slender bronze lacquered metal base. Fluid lines and warm textures meet in this light, minimalist design.

- Crafted from MDF with natural ash veneer.
- Base in matt bronze metallic finish.
- Each coffee table is finely crafted by hand and may vary in color, pattern, shape, and texture, making it truly unique.

- ***Note: Avoid abrasives and harsh chemicals, as these substances can mark or compromise the finish.***

***Avoid placing indoor furnishings in direct sunlight or near sources of heat or moisture, as this could cause cracking or changes in finishes.***
