

MAHJONG TABLE ASSEMBLY INSTRUCTIONS

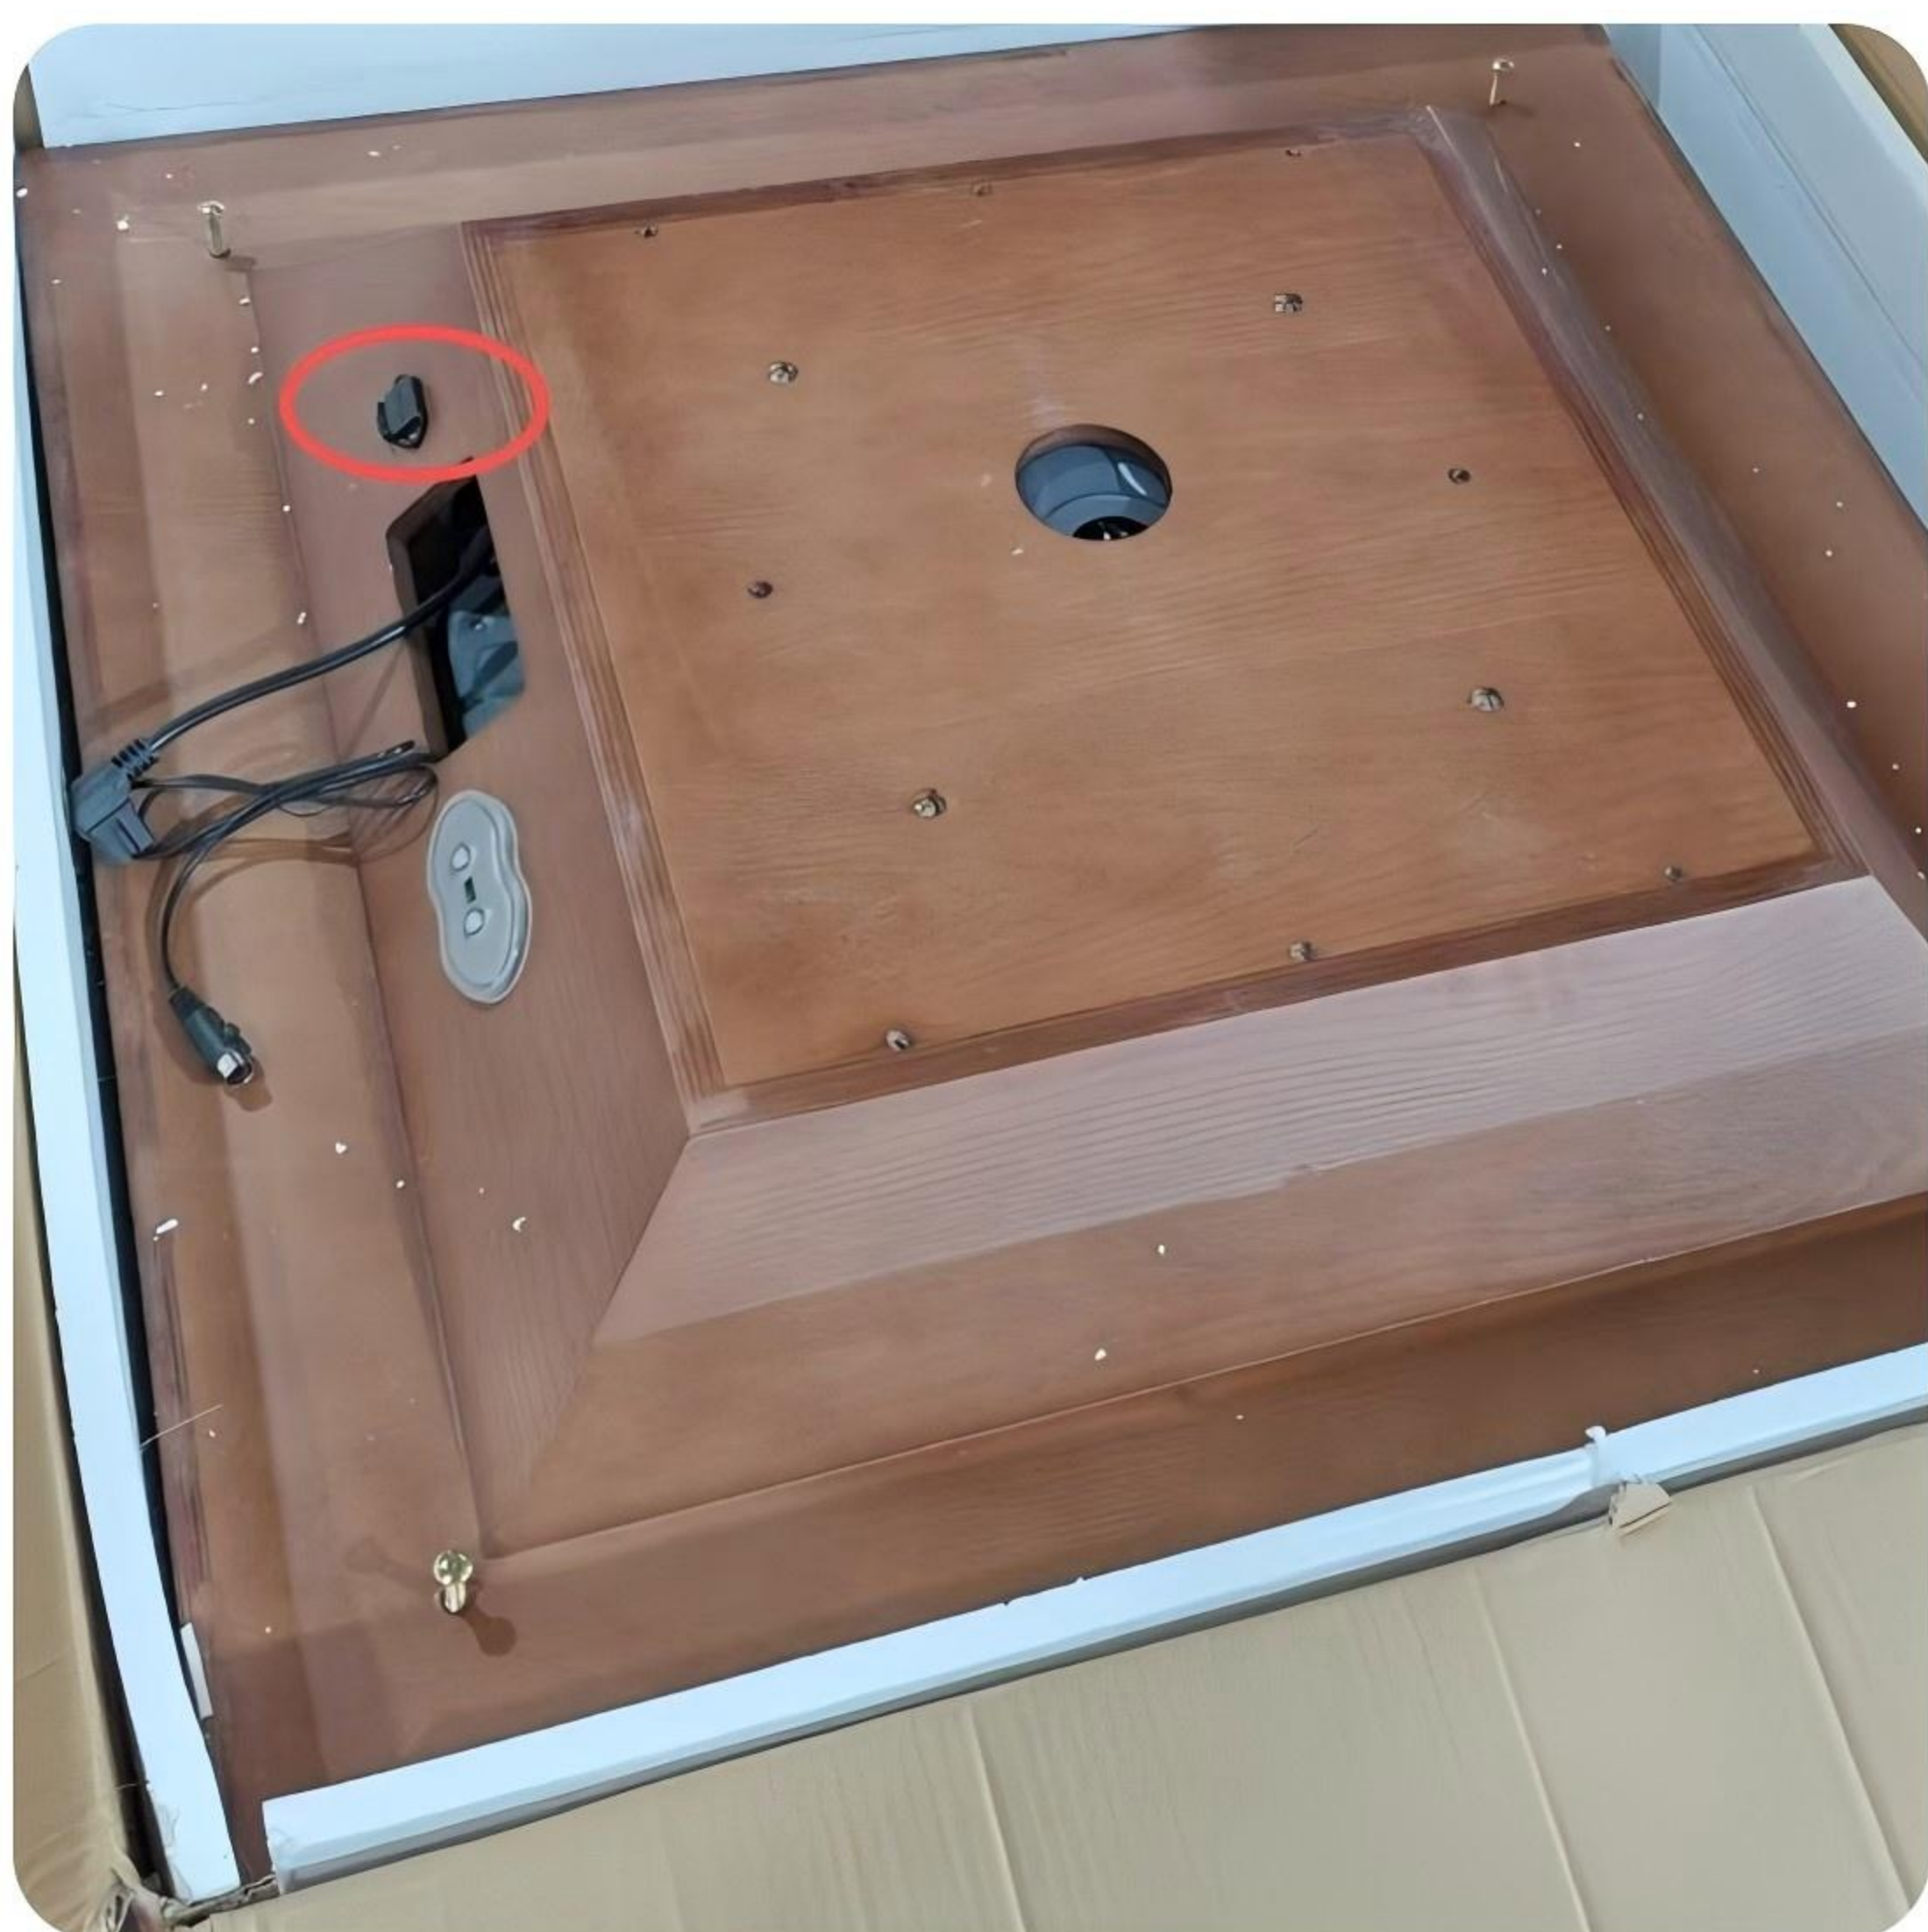

First, remove the automatic shuffler unit from the table, then lift the tabletop and position it over the base.

Route the base's cable up through the designated hole.

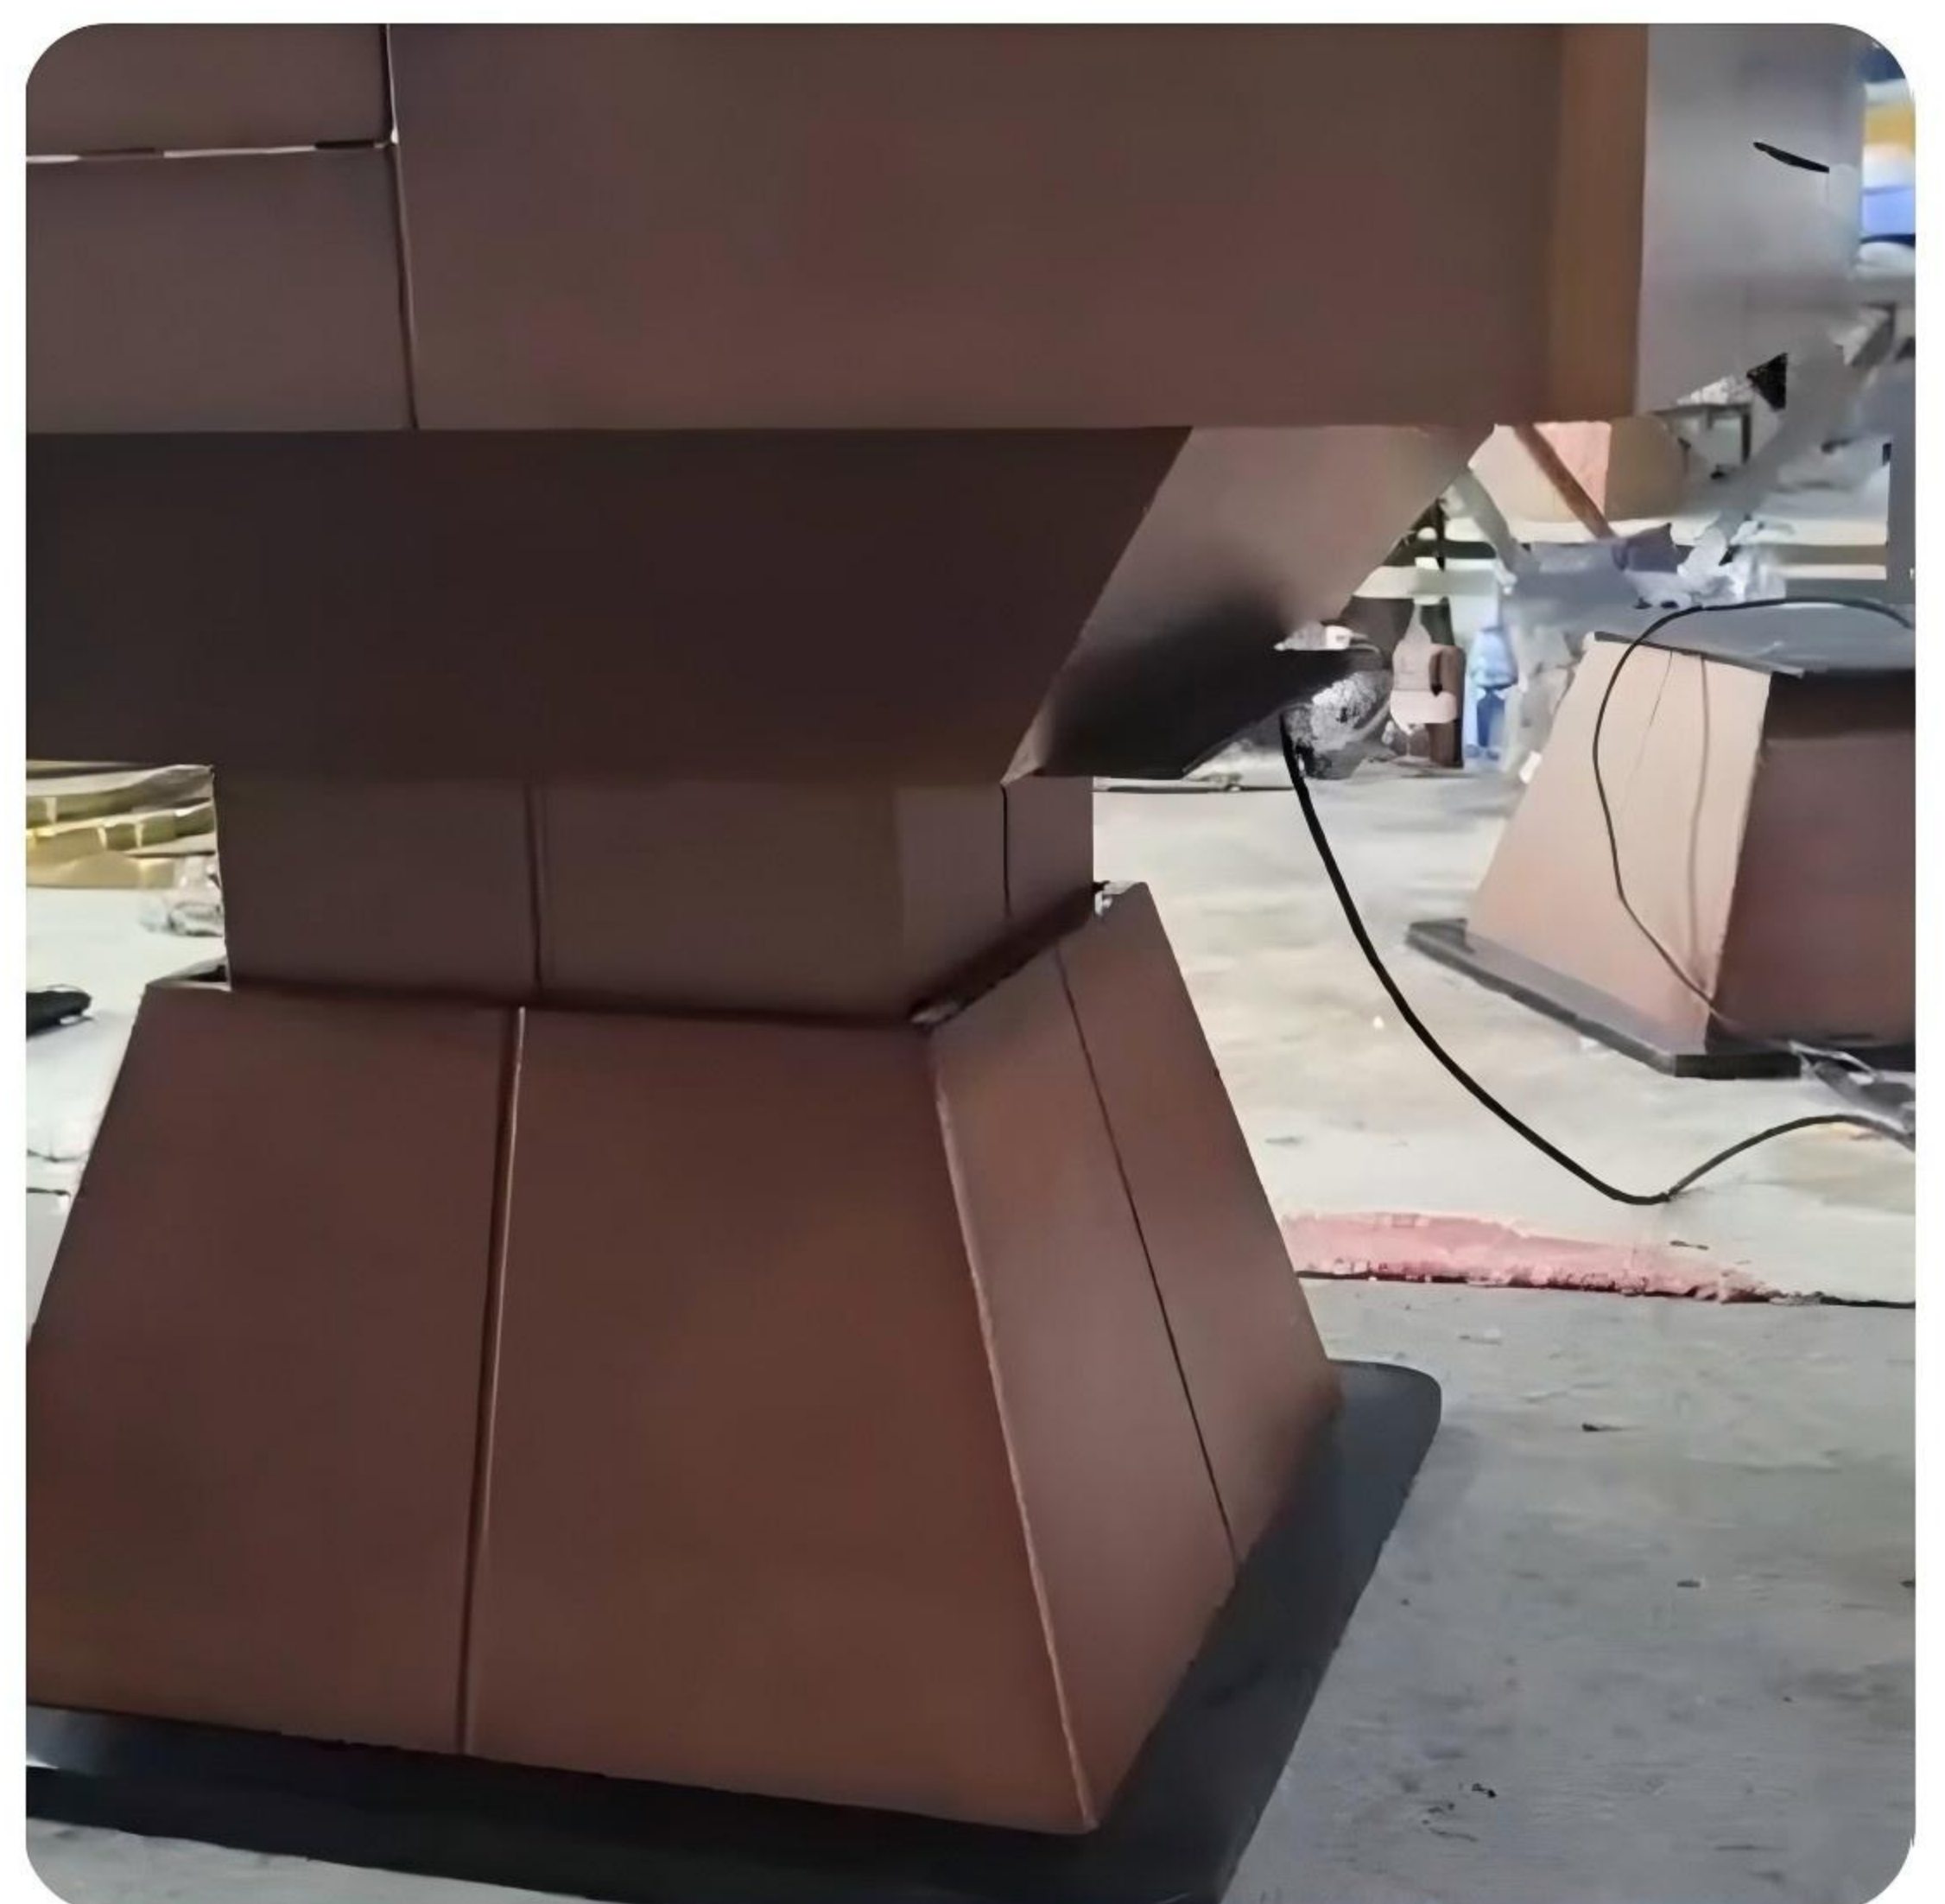

Securely connect the base cable to its corresponding port.

Connect the power cord to ensure the device powers on and operates normally.

Press the button to raise the tabletop.

Align the connector plate with the tabletop.

Finally, place the automatic shuffler into the tabletop and connect its power cord.

Attach the surround panels to complete the setup.
