

# Manual Meat Grinder

Mince your own meats!

## INSTRUCTIONS

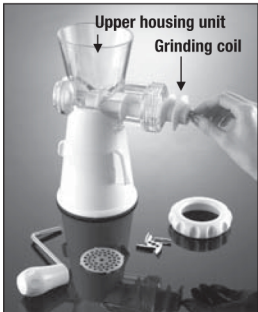

Engage suction base for stability by turning the knob in the middle.

Note : Clean up the bottom of the grinder for added stability.

Insert cubed meat in the upper housing and push down with the pusher. For better mincing results, dice your meat before inserting in the manual meat grinder.

## ASSEMBLY

1) Install the grinding coil into the upper housing unit.

2) Install the cutting blade

and then the disc blade.

3) Install the blade cover and it's ready to be used.

## CLEANING

- Easy to clean, all pieces are removable
- Remove the grinding coil before removing the upper housing unit
- Dishwasher safe or wash in warm soapy water

**CAUTION : BLADES ARE SHARP**
