CHECKING THE INSTALLATION SITE

Clearances and dimensions

To install the range, refer to the following figure.

For installation in CANADA, a Free-standing range is not to be installed closer than 12mm from any adjacent surface.

CAUTION

This range has been designed to comply with the maximum allowable wood cabinet temperatures of 194°F. Make sure the wall covering, countertops and cabinets around the range can withstand the heat (up to 194 °F) generated by the range. If not, discoloration, delamination or melting may occur.
