## Step 1

## Connecting the Base Plates and Junction Plates

## Step 2

## Connecting the Vertical Monitor Brackets

**Step 3****Connecting the TV Brackets and Junction Plates****Step 4****Attaching the TV Brackets to the back of TV**

First of all, make sure the diameter and length of the Bolts(a,b,c,d,e,f) your TV requires. Once you have determined the correct diameter and length, you will thread the Bolts into the TV using the correct Washers(g,h,i). Use the Spacers(j,k) only if the bolts are too longer.
