

5-IN-1 SMART GRILL & AIR FRYER

INSTRUCTION MANUAL

ITEM NO: 8070-BLACK

Model: **AF7001-UL**

THANK YOU FOR CHOOSING OUR MACHINE

PLEASE READ THE MANUAL CAREFULLY BEFORE OPERATING

IMPORTANT SAFEGUARDS

Before using the electrical appliance, the following basic precautions should always be followed including the following:

1. Read all instructions.
2. Before using check that the voltage of wall outlet correspond to the one shown on the rating plate.
3. Do not operate any appliance with a damaged cord or plug or after the appliance malfunctions, or is dropped or damaged in any manner. Return appliance to the nearest authorized service facility for examination, repair or electrical or mechanical adjustment.
4. Do not leave the appliance unattended when it is being operated.
5. The appliance must not be immersed into the water or other liquid to avoid electric shock.
6. To disconnect, turn any control to "off", then remove plug from wall outlet.
7. Unplug from outlet when not in use and before cleaning. Allow to cool down before putting on or taking off parts, and before cleaning the appliance.
8. Use special gloves when moving the frying basket or inner pot.
9. Do not let the cord hang over the edge of a table or counter or touch a hot surface.
10. Do not touch the hot surface. Use the handle or the button.
11. The use of accessory not recommended by the manufacturer may cause injuries to persons.
12. Do not use the appliance for other than intended use.
13. Do not place on or near a hot gas or electric burner or in a heated oven.

14. Before use, always ensure that the frying basket or inner pot is positioned correctly.
15. To prevent fire, do not place the appliance close to flammable materials such as curtains, and do not place anything above the appliance.
16. Make sure all papers, cardboard or plastic have been removed before frying food.
17. The appliance can not be used for storing things, especially papers, cardboard or plastic.
18. Extreme caution must be used when moving an appliance containing hot oil or other hot liquids.
19. **WARNING:** Keep the appliance out of reach of young children, particularly during using and cooling down.
20. This appliance is not intended for used by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliances by a person responsible for their safety.
21. Close supervision is necessary when any appliance is used by or near children.
22. Children should be supervised to ensure that they do not play with the appliance.
23. Do not use outdoors.
24. Use extreme caution when removing tray or disposing of hot grease.
25. Do not clean with metal scouring pads. Pieces can break off the pad and touch electrical parts, creating a risk of electric shock.

SAVE THESE INSTRUCTIONS

HOUSEHOLD USE ONLY

NOTES ON THE CORD PLUG

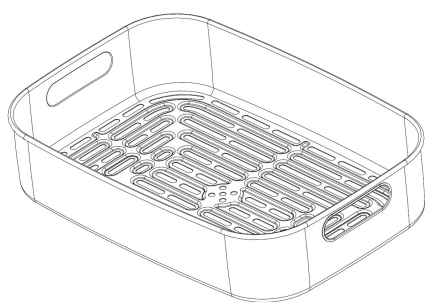

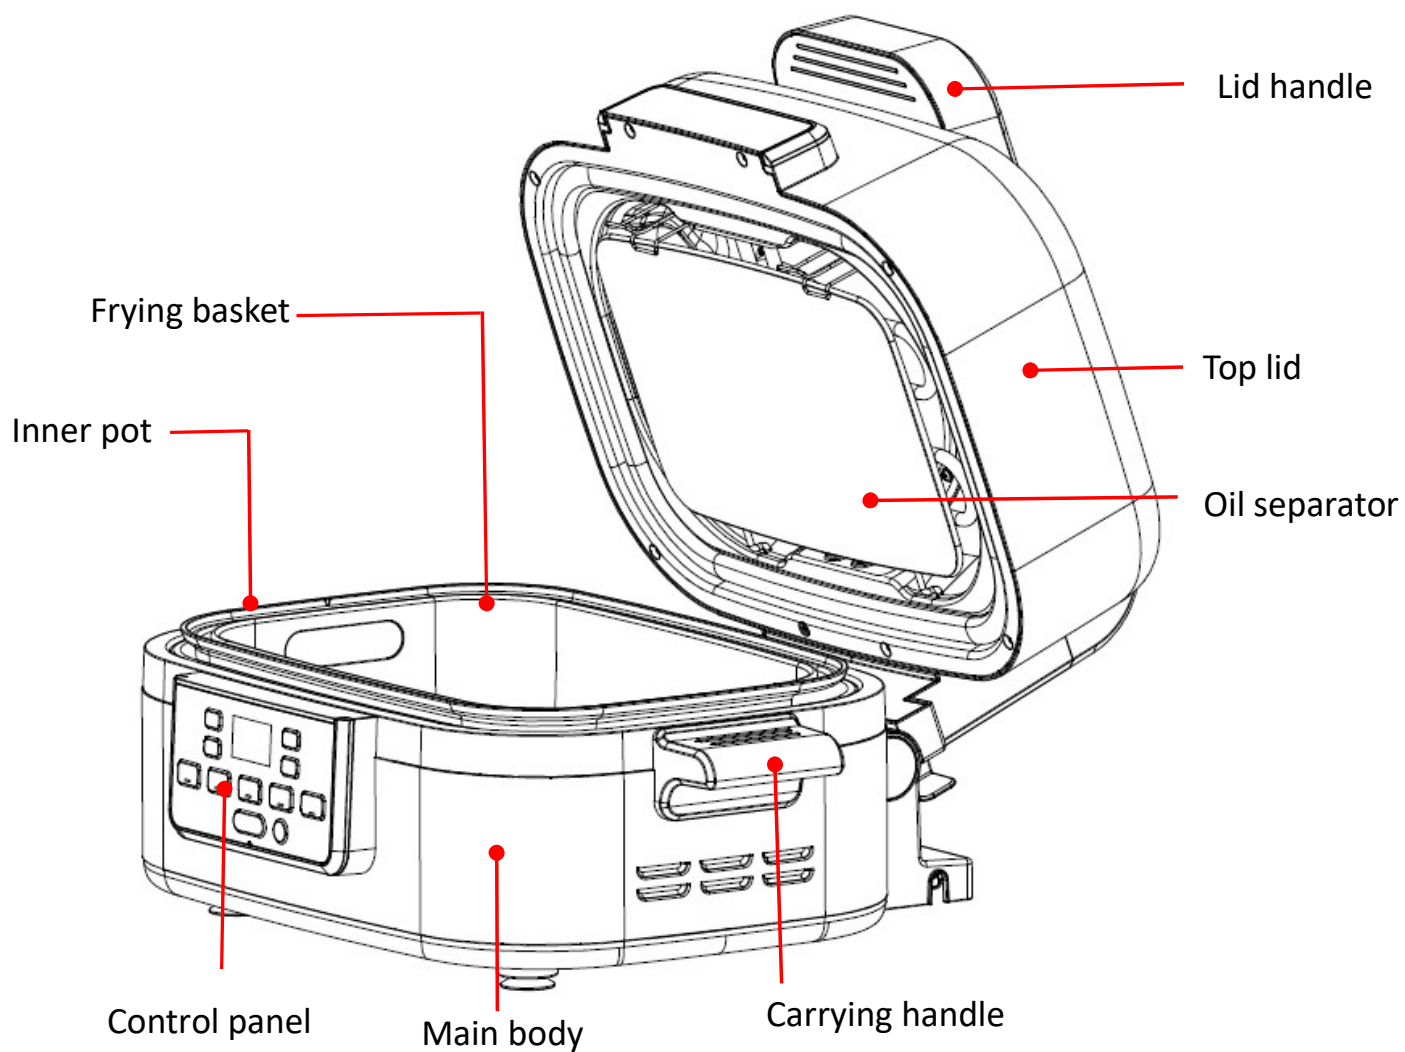

This appliance has a polarized plug, To reduce the risk of electric shock, this plug is intended to fit into a polarized outlet only one way, If the plug does not fit fully into the outlet, reverse the plug, If it still does not fit, contact a qualified electrician, Do not attempt to modify the plug in any way.

NOTES ON THE CORD

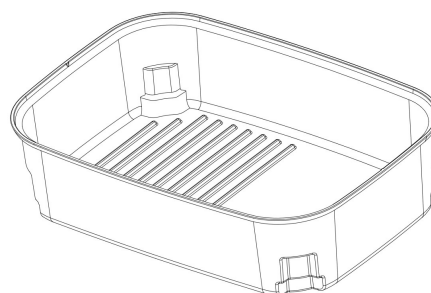

A short power-supply cord (or detachable power-supply cord) is to be provided to reduce the risk resulting from becoming entangled in or tripping over a longer cord.

CAUTION: DO NOT USE WITH AN EXTENSION CORD.

CLEANING AND MAINTENANCE

1. Unplug the appliance and allow it to cool down thoroughly before cleaning. Clean all accessories such as frying basket, inner pot and oil separator by hot water with detergent.
2. Remove the frying basket and inner pot and then immerse them into the water for cleaning thoroughly. Do not use an abrasive cleaning tool to clean, otherwise, the coating on the surface will easily fall off.
3. Clean the inner wall of the body regularly. Gently wipe off the oil with a warm cotton cloth, then dry it with a dry cloth.
4. Clean the reflecting plate on the top lid with a piece of hot cloth soaked with detergent.
5. Never immerse the appliance into water for cleaning.
6. Do not use brush to clean the appliance.

7. Do not clean the appliance with any metal tool to avoid its surface coating being damaged.
8. Please clean the oil separator after use. Press the fasteners of oil separator to remove it (See Fig.2 and Fig.3) . And the oil separator must be installed well in position after cleaning to avoid bad cooking result.
9. To clean the reflecting plate on the top lid, firstly open the top lid and remove the oil separator, rotate the butterfly-shaped screw anticlockwise to remove it, and then unlock the upper heating element by following the arrow direction shown, then you can clean the reflecting plate with a clean and hot cloth. After cleaning, fix the upper heating element on the bracket of protection cover, and then turn the butterfly-shaped screw clockwise to fasten with the upper heating element (see Fig.4, Fig.5, Fig.6 and Fig.7).
10. After cleaning the reflecting plate, the upper heating element must be fixed with the protection cover. The appliance can not be operated unless the protection cover is fixed by the butterfly-shaped screw.
