User's Guide

Thank you for purchasing this product.

To use this product, please plug it into a 12V DC power supply.

Please use it if the product works normally after connecting to power.

Introduction

The box is an intelligent controller which integrates the charging function and the lighting control function, coming with 1 USB port and 1 type-C port, 2 touch buttons, a 24-color lighting control button, and a wireless charger.

Operation

This touch button is used to turn on/off lights and adjust brightness.

A. Long touch -> adjust the luminance.

This touch button is used to turn on/off the induction function.

- A. Short touch to turn on the induction function. It can auto-turn on the light when people are close to the controller within 1 meters. It can auto power off the light when the body is far away from the controller after 30 seconds.
- B. Long touch to turn off the induction function.
- C. Note: When you touch the light button to change the light modes, the induction function will automatically turn off. It is best to turn on this function after selecting the light color and adjusting the brightness you want.

This touch button is used to change 24 colors light. You can rotate the ring to choose colors, or click the ring to choose colors. Click in the middle of the ring, and reset to the white light.

ATTENTION PLEASE

1. If there is no touch response suddenly, Re-plug the power to reset the touch static electricity.
2. If bubbles appear on the panel, remove the protective film.
3. If you have any questions when installing, please feel free to contact us. Thank you.
