

MICROWAVE RACK INSTRUCTION

Assembly Steps:

1

Screw Upper poles (E) into lower poles (F) by screw connectors which is already on the upper poles. Screw the Nylon Caster (H) into the bottom of each lower pole (D) and Front Pole (which is already to connector,) then fasten it by wrench.

A diagram showing the assembly of the poles. It illustrates how to screw the upper poles (E) into the lower poles (F) using pre-installed connectors. It also shows how to attach the nylon casters (H) to the bottom of the lower poles (D) and the front pole.

2

Snap Plastic Clips (D) onto the pole grooves of four lower poles and one-piece pole at the same position and make sure that the arrow of plastic clips are pointing up.

A diagram showing how to snap plastic clips (D) onto the pole grooves of the four lower poles and the one-piece pole. A callout shows the clip being snapped onto the pole, with an arrow indicating the clip's arrow should point up.

3

Please make sure that you have the wire shelf (A) the correct way up. Hold the shelf on its side and slide the top of each pole through

A diagram showing a person holding a wire shelf (A) and sliding it onto the poles. A callout shows the shelf being placed on the poles, with arrows indicating the correct orientation.

4

Snap plastic clips onto the same grooves of four poles at your desired position, slide down the wire shelf onto the plastic clips.

A diagram showing the wire shelf (A) being slid down onto the plastic clips (D) that have been snapped onto the poles. A callout shows the shelf being placed on the clips, with arrows indicating the correct orientation.

5

Screw Upper poles (C) into lower poles by screw connectors which is already on the upper poles.

A diagram showing the assembly of the poles. It illustrates how to screw the upper poles (C) into the lower poles (F) using pre-installed connectors.

6

Repeat the step 4 to assemble the Layer 3.

A diagram showing the wire shelf (A) being slid down onto the plastic clips (D) that have been snapped onto the poles for Layer 3.

7

Snap plastic clips onto the same grooves of up-poles as your desired position, slide down the moveable hanger on the plastic clips.

A diagram showing the moveable hanger (G) being slid down onto the plastic clips (D) that have been snapped onto the poles.

8

Snap plastic clips onto the top of up-poles, slide down the Semi-Round Wire Shelf (B) onto the plastic clips.

A diagram showing the semi-round wire shelf (B) being slid down onto the plastic clips (D) that have been snapped onto the poles.

No.	A	B	C	D	E	F	G	H	I
Name	Wire Shelf	Semi-Round Wire Shelf	Up Pole 590	Down Pole 590	Up Pole 260	Down Pole 440	Moveable Hanger	Clips	Nylon Caster
