Please carefully review the following precautions before proceeding with the installation:

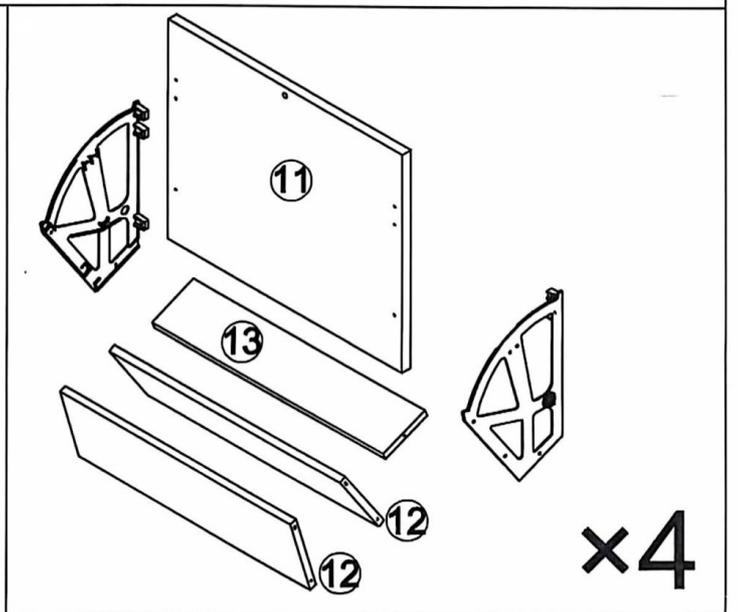

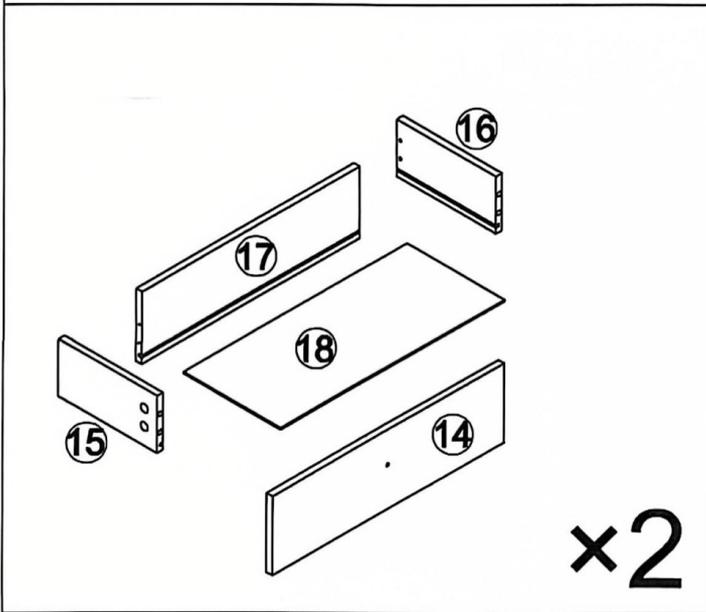

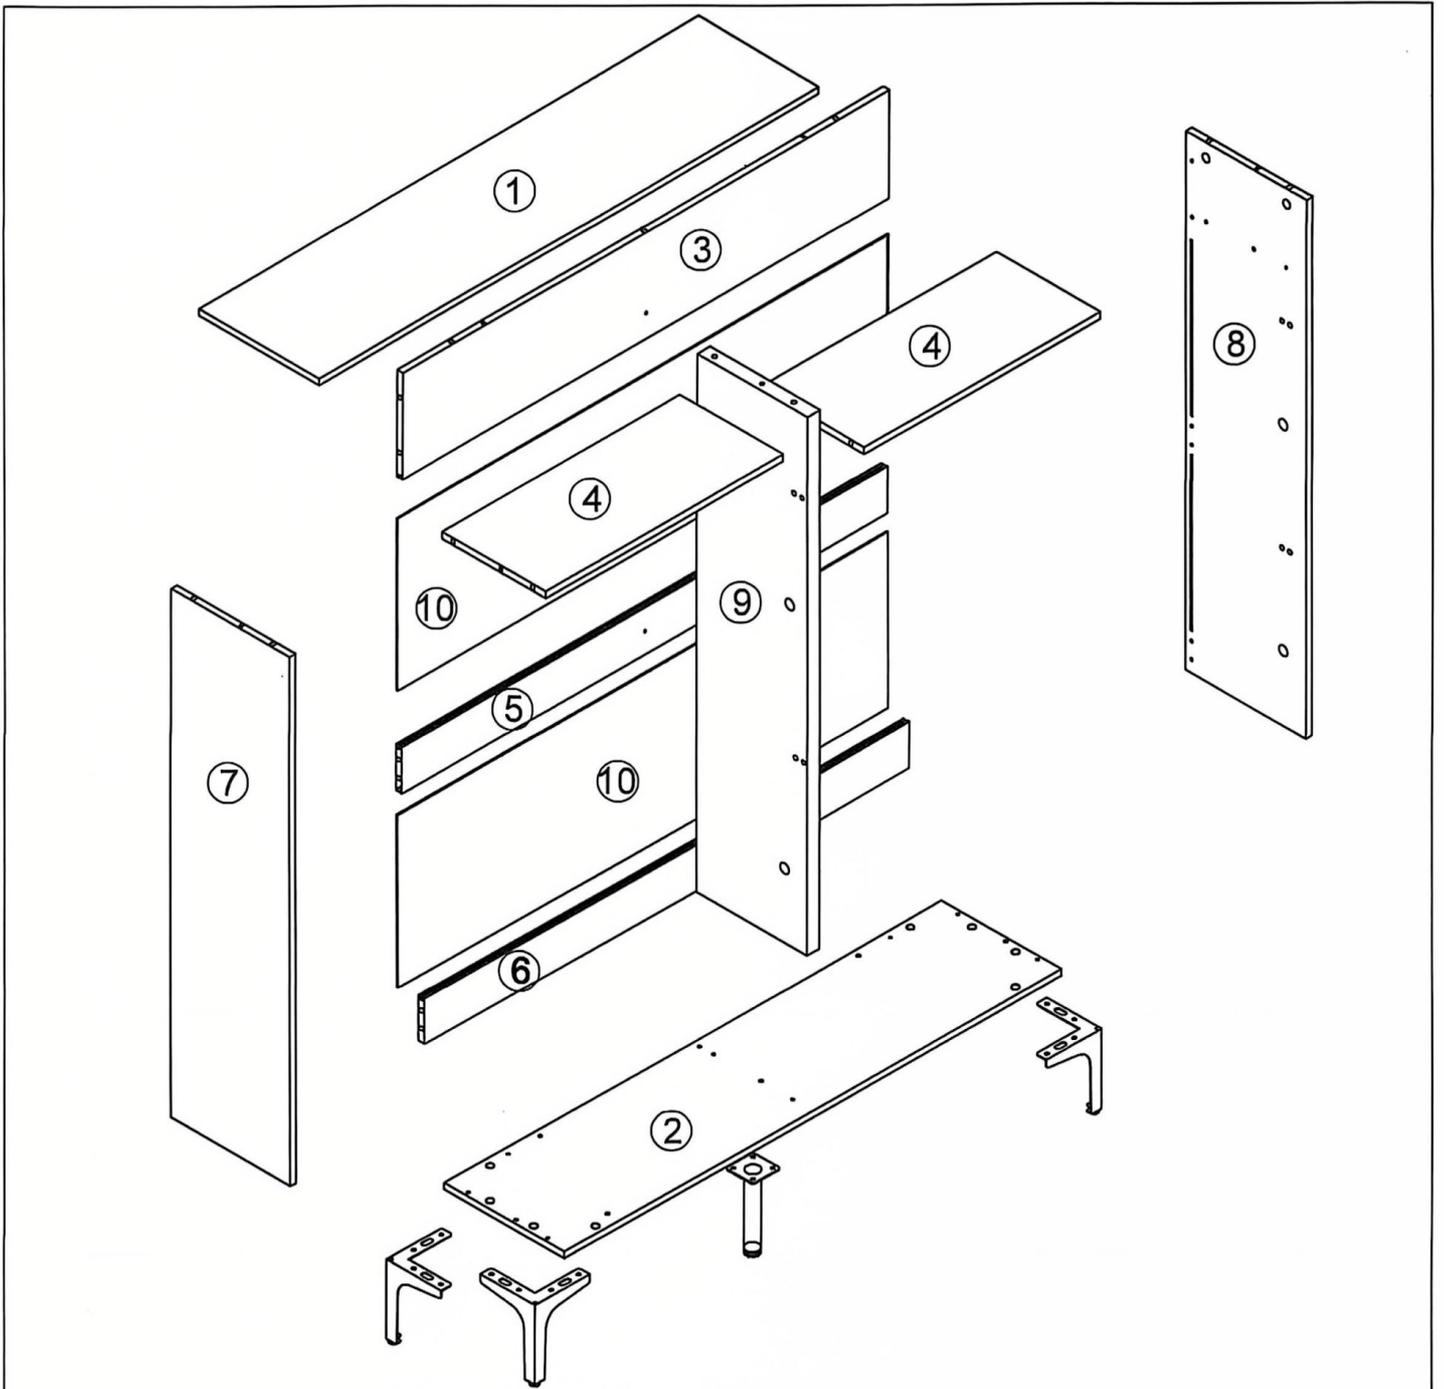

1. The installation process for this product is complex, and it is highly recommended to have at least two individuals working together during the installation.
2. Prior to each step, please refer to the screw hole positions to ensure that the board is aligned correctly according to the images provided in the instruction manual. This will help prevent any errors.
3. In case power tools are used for installation, it is important to tighten the screws intermittently rather than applying excessive force continuously. This precaution will help avoid potential cracks around the screw holes.
4. If you encounter any difficulties or issues during the assembly process, please don't hesitate to reach out to us. We assure you that we will address your concerns and provide a solution within 24 hours.

Thank you for your attention to these important instructions.
