

INSTALLATION INSTRUCTION

DeerValley®

Wall Mount Laundry Sink

Prior to Installation:

- Observe and comply with all building and plumbing codes.
- As our basins are handcrafted and dimensions are approximate, we recommend using the actual basin for the cutout.
- Use 100% Silicone (non-water based) for all installations.
- Ensure adequate space behind the basin for faucet and backsplash, including the full range of motion for faucet handles and spouts.
- Make sure a watertight seal exists on all drain connections.
- Do not place basin directly on floor. After unpacking, place basin on protective material such as packing materials.
- Remember to always use non-abrasive cleaners on DeerValley sinks.

General Recommendations:

Please read installation instructions thoroughly before installing the vessel sink.

Be sure to use proper tools and always wear proper personal safety accessories for your protection.

INSTRUCTIONS

(1) SUGGESTED TOOLS AND MATERIALS

- Sealant-We recommend the use of a stone, marble and granite silicone caulk or a general purpose silicone sealant.
- Sealant: We highly recommend employing a silicone caulk specifically designed for stone, marble, and granite surfaces, or a versatile general-purpose silicone sealant.
- Optimized Statement: Installation tools are not included; kindly ensure you have them prepared in advance.

(2) Tips Before Installation

- Ensure there is adequate room for the faucet and backsplash installations.
- Unbox and examine the sink for shipping damages, and verify the presence of all necessary components. If any damage is detected, refrain from installation and promptly contact us for further assistance.
- Please use assistance when lifting the sink in order to avoid personal injury.
- We recommend consulting a professional if you are unfamiliar with installing kitchen fixtures and plumbing. We accept no liability for any damages to the floor, walls, plumbing or personal injury during installation.

WARNING:

To reduce the risk of injury or property damage, read and follow all of the installation instructions before installing this product and wear safety goggles. This product must be installed in accordance with all state and local plumbing and building codes. Call a professional if you are uncertain about installing this product properly.

(3) INSTALL HANGER BRACKETS & SINK

- Establish the desired installation height, with the sink positioned between 31 inches and 34 inches from the top of the sink's lip to the floor.
- Ensure the center of the slots on the steel hangers is set between 11.4 inches and 11.8 inches apart, aligned with the back of the sink's base.
- Mark these measurements using a pencil and a level, drawing a plumb line for the screws.
- Hold the steel hangers level and mark hole locations on the walls, ensuring the marks are level.
- Mount the steel hangers to the wall using two short screws (not included).
- Before fully tightening into position, verify that the installation is level.

- With help from another person, place sink into the steel hanger. Place a level across sink and check that it is plumb. Adjust as necessary.
