Hammer

Installation Instruction

The medicine cabinet supports two installation methods:
1.Surface Installation and **2.Embedded Installation**.

Please choose the installation way as needed.

Some cabinet doors will be separated from the cabinet to reduce packaging volume. Please install the cabinet door after completing the cabinet installation according to the instruction.

Before installing the medicine cabinet, please remove the cabinet doors first. This will make the installation easier and more convenient.

1. First, disconnect the wires from the cabinet doors.

2. Then, press the end of the hinges and detach the cabinet door.

Surface Installation Instruction

Place the medicine cabinet against the wall and mark the placement of the cabinet. Draw a line on the wall with a level and marker to indicate where the cabinet bottom is.

Attention: Please hang the cabinet at least 3 inches above the faucet.

STEP 1

Bottom mounting brackets must be attached to furring strip/channel or wall studs

STEP 2

Mark spots for the bottom bracket.

Keep in mind that the studs are 16" center to center

STEP 3

Drill holes in the wall.

STEP 4

Plug the plastic anchors into the holes. (If needed)

STEP 5

Fasten the mounting bracket to the wall.

Surface Installation Instruction

Rules for Selecting Anchors

Installing on Drywall:

- Use Anchors A to ensure a secure installation on drywall.
- Anchors A are designed to provide adequate support on drywall.

Anchors A

Installing on concrete wall:

- Use Anchors B for a stronger installation.
- Anchors B are specifically designed for concrete wall, offering higher fastening strength on studs.

Anchors B

STEP 10

Insert clear snap-in shelf clips into holes on the sides of the cabinet.

Please note the installation direction of the shelf clips, They are marked as "L"/"R" on them.

STEP 11

Step12: Cabinet Door Installation

1.Insert the hinges to the base ,then connect the doors with the cabinet

2. hinge adjustment

Embedded Installation Instruction

Before installing, it is necessary to determine the opening size, which can be referred to in the table below.

Actual cabinet		Wall opening dimensions for embedded installation all in Inches.		
No.	Dimensions	W (Width)	H (Height)	D (Depth)
1	20" × 30"	19-1/4	29-1/4	4
2	24" × 30"	23-1/4	29-1/4	4
3	24" × 32"	23-1/4	31-1/4	4
4	30" × 30"	29-1/4	29-1/4	4
5	36" × 30"	35-1/4	29-1/4	4
6	36" × 36"	35-1/4	35-1/4	4
7	40" × 30"	39-1/4	29-1/4	4
8	48" × 30"	47-1/4	29-1/4	4
9	48" × 36"	47-1/4	35-1/4	4

Embedded Installation Instruction

*All diagrams are for reference only. All model dimensions and proportion position will vary.

Step5: Insert clear snap-in shelf clips into holes on the sides of the cabinet.**Step6: Cabinet Door Installation**

1. Insert the hinges to the base, then connect the doors with the cabinet

**2. hinge adjustment**

Operating Manual

The buttons turn blue when connected to the main power supply and turn white after a brief touch.

- Briefly touch the button to turn the mirror on or off.
- Press and hold the button to change the color temperature when the mirror is on.
- Optional to be wired to wall switch by ON/OFF memory function.

- Briefly touch the button to turn the mirror on or off.
- Press and hold the button to adjust the brightness.
- Release the button when the brightness reaches your desired level

- The mirror begins to warm up and defog after you press the defogger button.
- Press the button again to turn off the anti-fog function.
- **Press and hold the button to turn the blue backlight on or off.**
- Note: To prevent damage from prolonged high temperatures, the defogger will automatically stop after 60 minutes of continuous operation.
