⚠ WARNING

Use of a TV that is too heavy or large is hazardous. A TV that is too heavy will create a risk of a tip-over that can cause severe injury or death. A TV that is too large for the available space might be accidentally pushed or bumped off the furniture, or subject to tip-over.

- Check the size and weight of your TV. Compare it to the diagram below – **before you begin assembly!**
- This unit is designed for use with televisions weighing less than 50 or 95 pounds. **Never** use with a TV that weighs more. • The size of the television, front-to-back and side-to-side, must fit within the space defined in the diagram.
 - **Never** place the front edge of the TV past the front edge of the TV support shelf (or stop molding – if equipped)
 - **Never** allow the sides of the TV to extend past the side edges of the TV support surface.
 - If the TV has a CRT picture tube, the picture tube cone may extend past the rear of the support shelf.
- Be sure to apply the warning label as instructed in the last assembly step. The label provides important safety related information.

⚠ WARNING

Please use your furniture correctly and safely. Improper use can cause safety hazards, or damage to your furniture or household items. Carefully read the following safety information.

Death or serious injury may occur when children climb on audio and/or video equipment furniture. A remote control or toys placed on the furnishing may encourage a child to climb on the furnishing and as a result may tip over onto the child.

NEVER allow children to climb or play with the TV or furnishing supporting the TV.

NEVER place toys, food, remote, etc. on top of the TV or TV furnishing.

ALWAYS use either the safety hardware as instructed or other wall anchoring device.

Relocating audio and/or video equipment to furniture not specifically designed to support audio and/or video equipment may result in death or serious injury due to furniture collapse or over turning onto a child.

NEVER place a TV on furniture that is not intended to support a TV.

NEVER exceed the maximum size and weight of the TV shown in the instructions.

Be sure to apply the TV warning label as shown in the instructions.

Overloading drawers and shelves may result in furniture that can break or sag, or tip-over which may result in injury.

NEVER exceed the weight limits shown in the instructions.

Place the heavier items on lower shelves as far back from the front as possible.

Load the bottom surfaces first to avoid top-heavy furniture.

Moving furniture that is not designed to be moved or equipped with casters may result in injury or damage to furnishings or personal property.

ALWAYS unload shelves and drawers, starting with the top surfaces, before moving.

NEVER push or pull furniture on carpet. Have a friend help lift properly to move and/or reposition it.
