ASSEMBLY AND INSTALLATION INSTRUCTIONS

WARNING: TO AVOID RISK OF ELECTRICAL SHOCK, BE SURE TO SHUT OFF POWER BEFORE INSTALLING OR SERVICING THIS FIXTURE.

Before You Begin:

- Ensure power is turned off at the circuit breaker before installation.
- Read all instructions carefully.
- Installation should be performed by a qualified electrician if you are unfamiliar with wiring.

Step-by-Step Installation:

1. Use screws to attach the mounting plate to the junction box.

2. Connect the lamp's live wire, neutral wire, and ground wire to the corresponding wires in the junction box(black for live wire L, white for neutral wire N, bare copper for ground wire E).

3. Place the lamp's metal housing onto the mounting plate, exposing the screws.

4. Screw the nuts onto the exposed screws to secure the lamp's metal housing to the mounting plate.

5. Place the lampshade onto the lamp base.

6. Use the lamp base ring to secure the lampshade to the lamp base.

7. Install the light source (excluding the bulb).

Safety Instructions:

To avoid fire, shock, and serious personal injury, follow all instructions carefully.

1. Do not install or use the light fixture if any part is missing or damaged.
2. To avoid possible electrical shock be sure electricity is turned off at the main fuse or circuit breaker box before wiring.
3. Make certain no bare wires are exposed outside the wire connectors.
4. All wiring must conform to national and local electrical codes.
5. Follow the recommended instructions for the proper method of wiring your new light fixture. If you feel you do not have enough electrical wiring knowledge or experience, have your light fixture installed by a licensed electrician. Any electrical work not described in this manual should be performed by a licensed electrician.
