

Frameless Mirrors

Mounting INSTRUCTIONS

1. Determine where you want to hang the mirror on the wall.
2. Measure the distance between the two (2) aluminum brackets (large and small), that are already adhered to the back of your mirror.
3. Take the two (2) loose aluminum brackets with holes and place them on the wall. Holes on the bottom and ridges to the wall. And mount them the same spacing distance as you measured on the back of the mirror brackets
4. Large bracket on top. Small bracket on the bottom. Both centered like on the back of the mirror.
5. Secure them with the screws provided or you can use your own as the wall installation can vary and need additional hardware.
6. Once the brackets are securely fasten to the wall, pick up the mirror and hang onto brackets. You will feel it lock into the slots securely.

Cleaning Instructions

1. Do not use any Ammonia based mirror cleaner
2. Never spray cleaner directly on the mirror. Always spray onto paper towel or cloth.
