PREPARATION

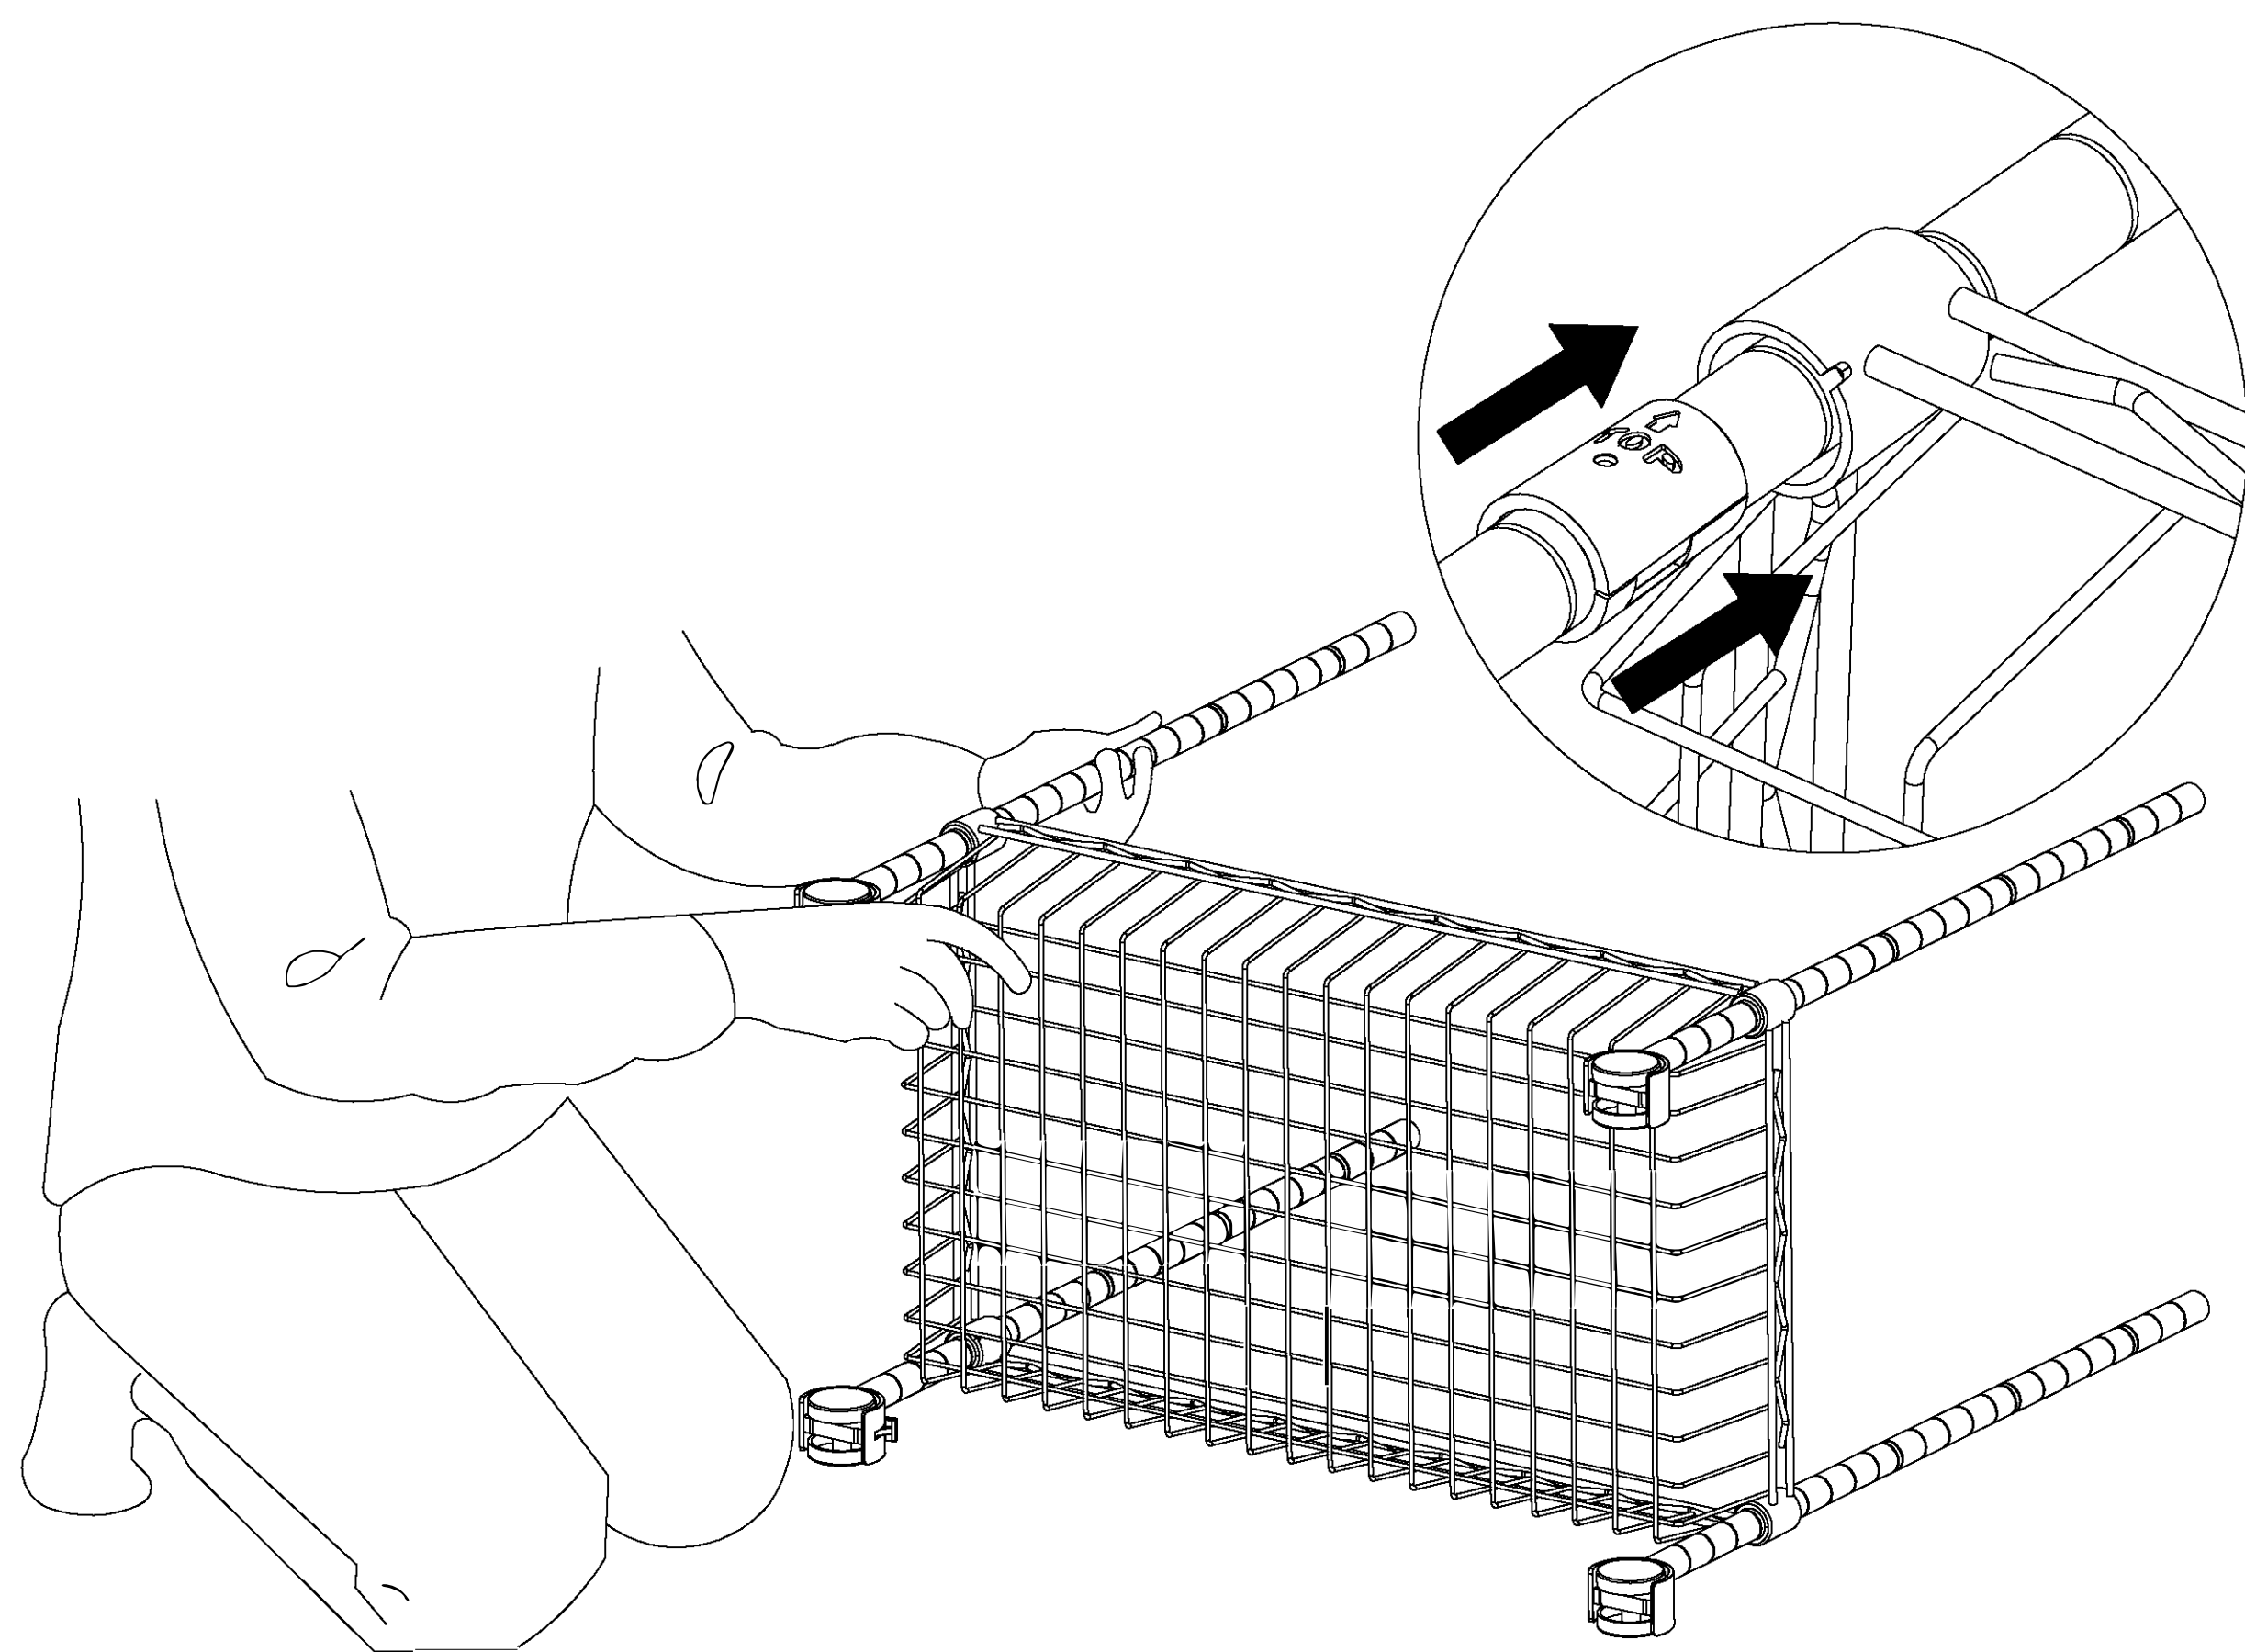

- 1.Before beginning assembly of product,make sure all parts are present.Compare parts with package contents list and hardware contents .If any parts is missing or damaged,do not attempt to assemble the product .
- 2.Estimated Assembly Time :Approximately 15-20 minutes.
- 3.Helpful Tools(not included):Rubber Mallet.
- 4.Tools Required for Assembly (included): Wrench

Assembly Steps:

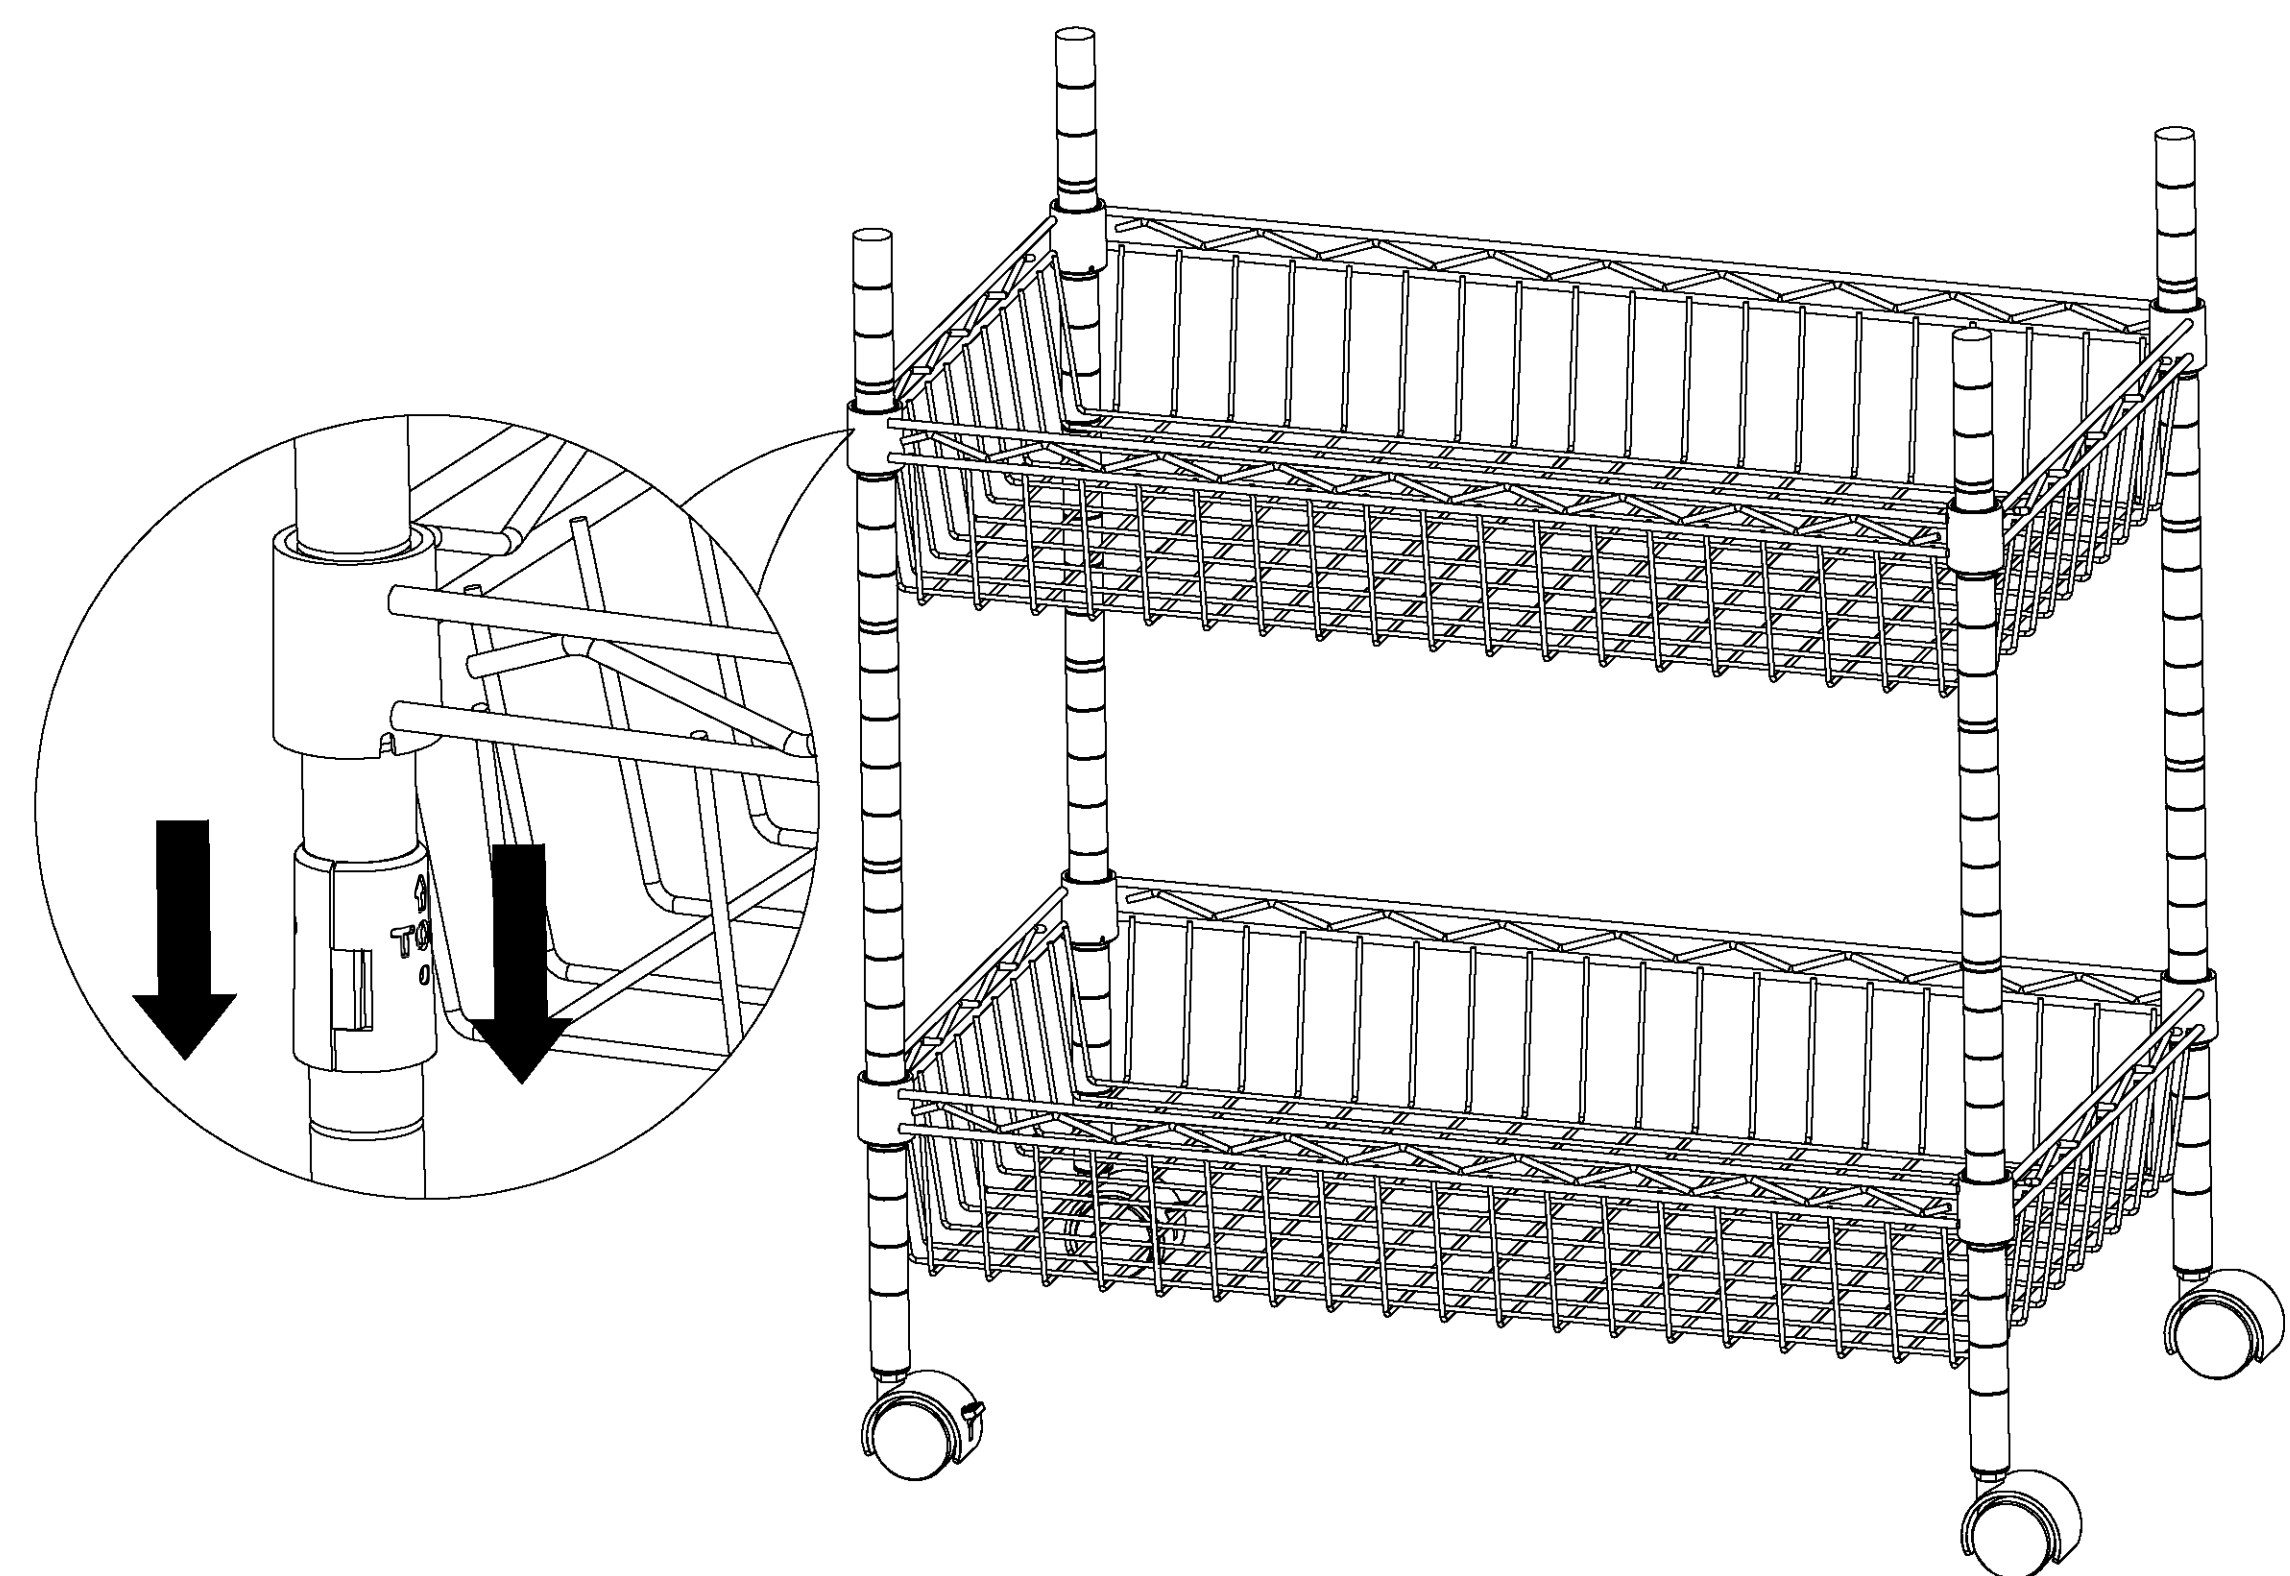

1 Screw the Nylon Casters (E) into the bottom of four Lower Poles (B) and fastened by Wrench . Snap Plastic Clips (D) onto the pole grooves of four lower poles at the same position and make sure that the arrow of plastic clips are pointing up.

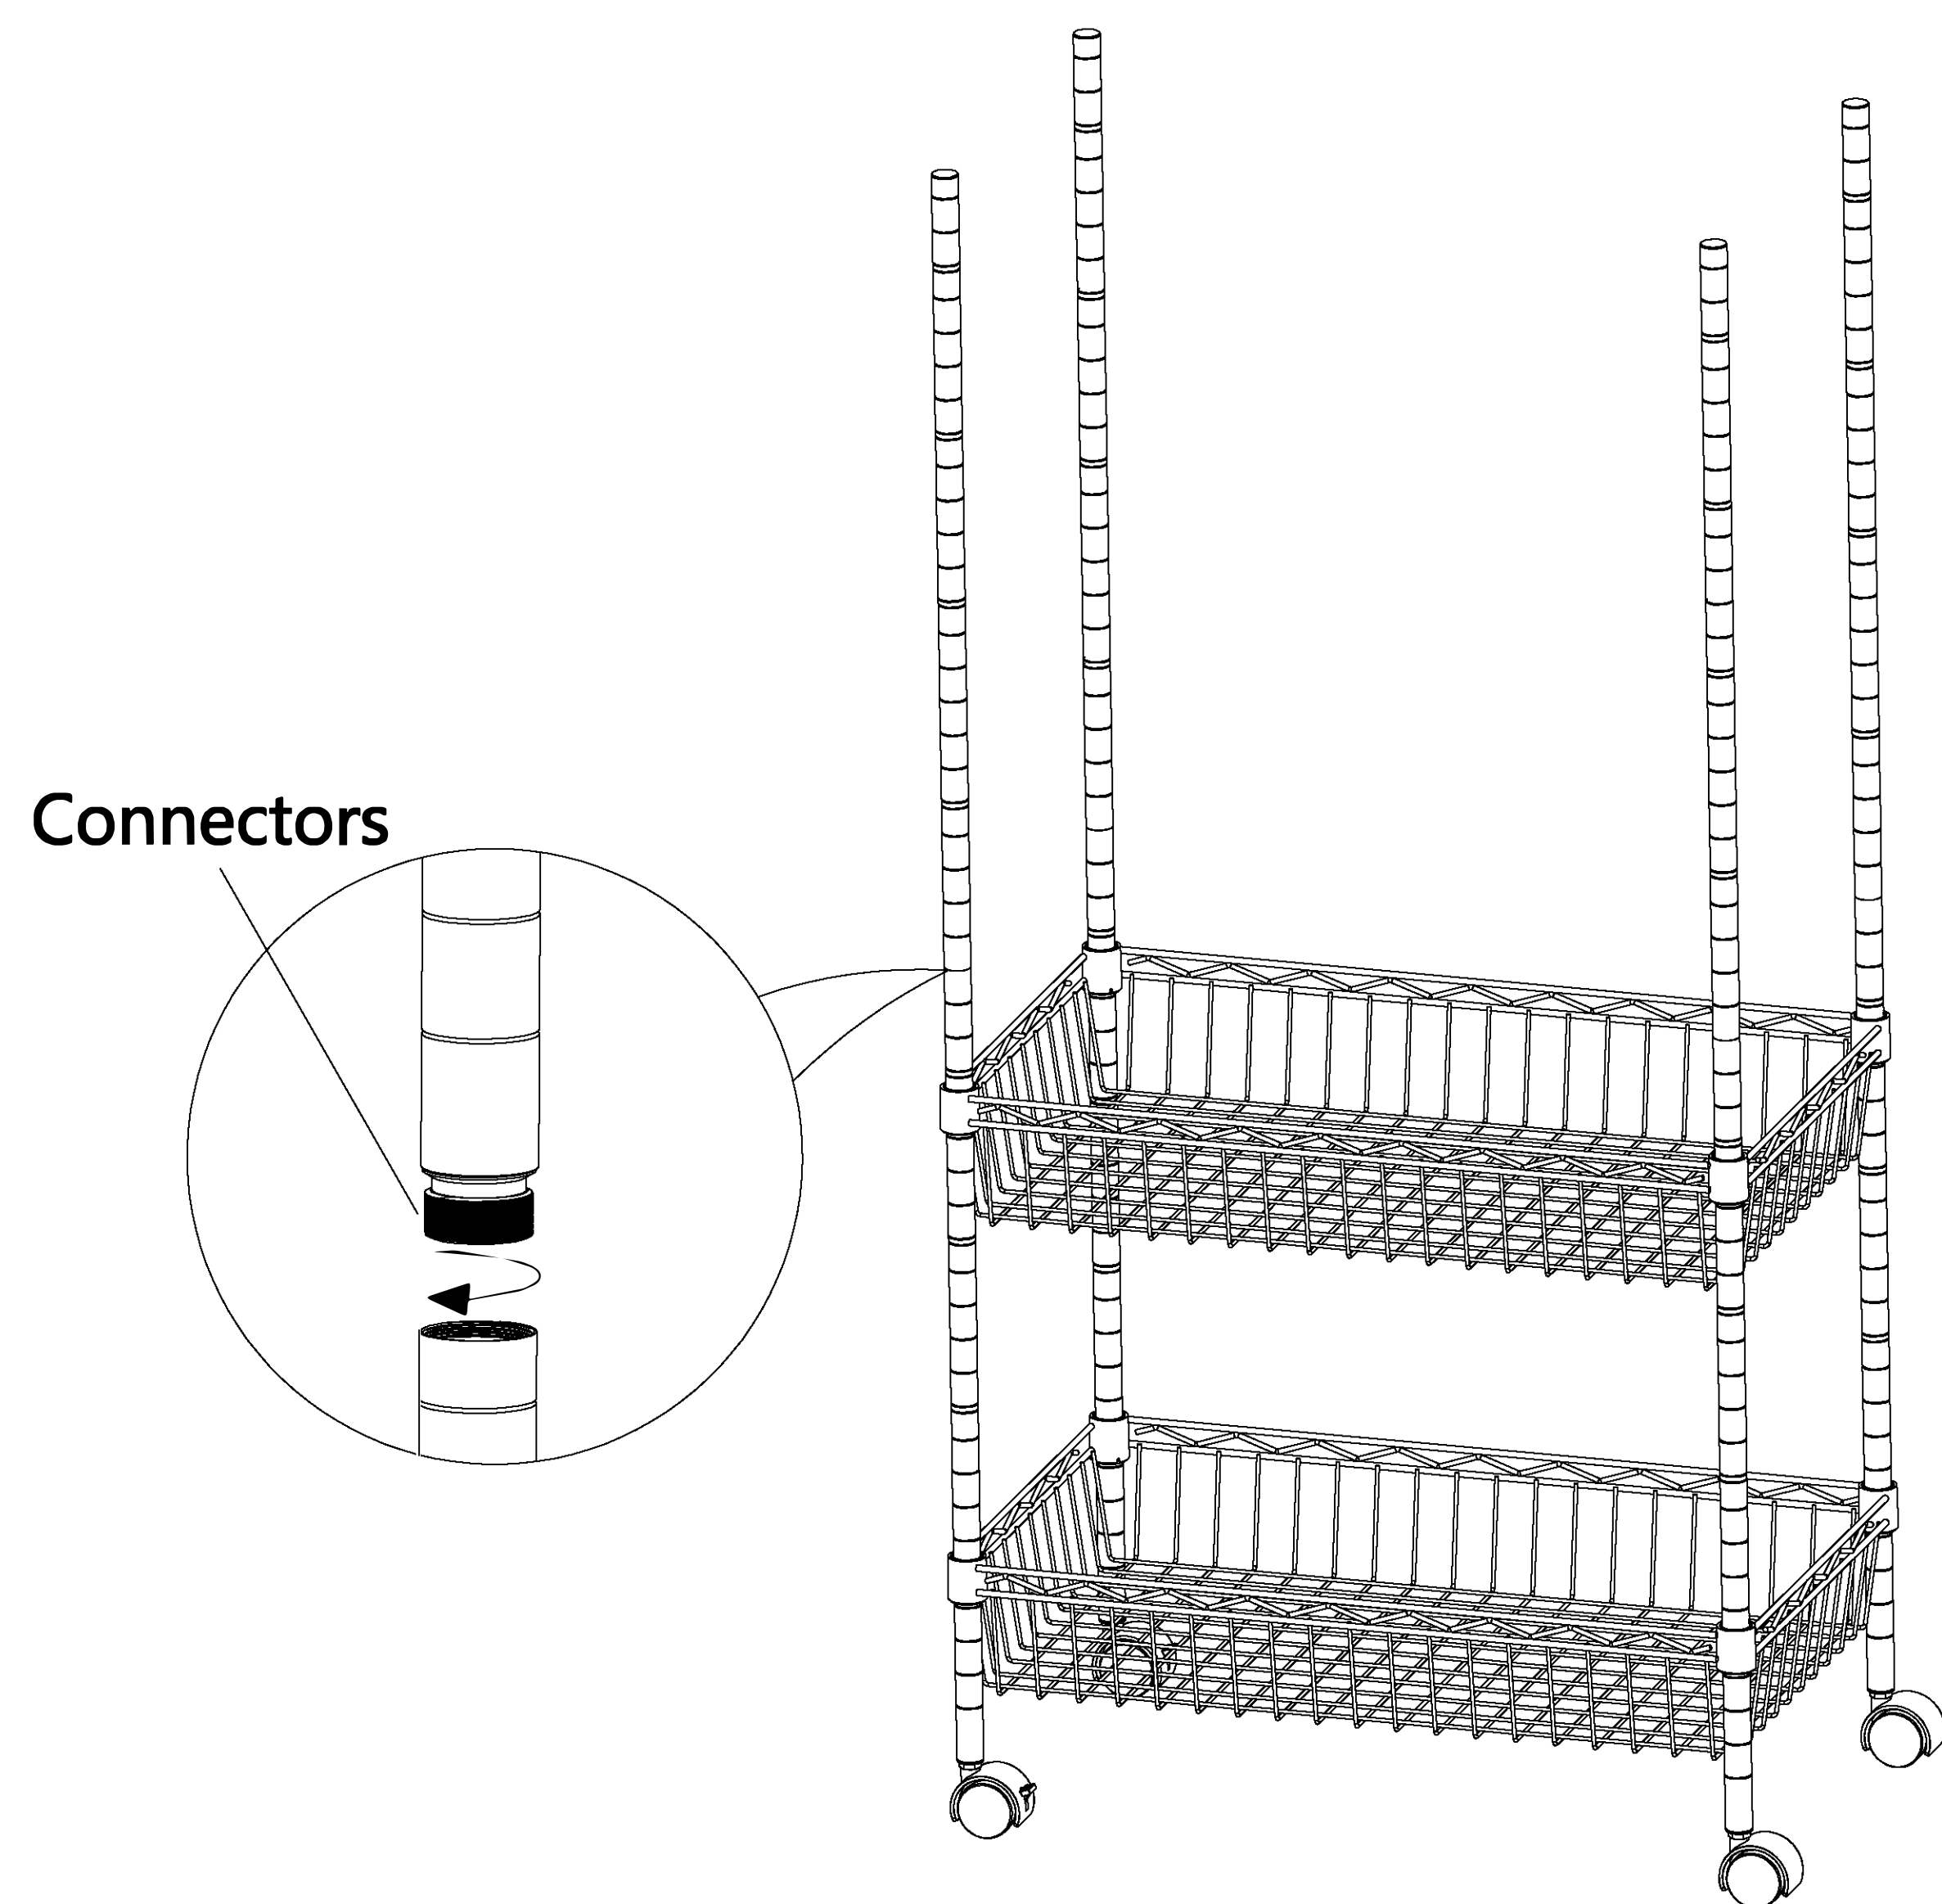

2 Please make sure Wire Basket (A) the correct way up. Hold the wire basket on its side and slide the top of four lower poles through the bottom of each basket at its corners until there is snug fit . After 4 poles have been slid through the basket collar holes, set the basket upright.

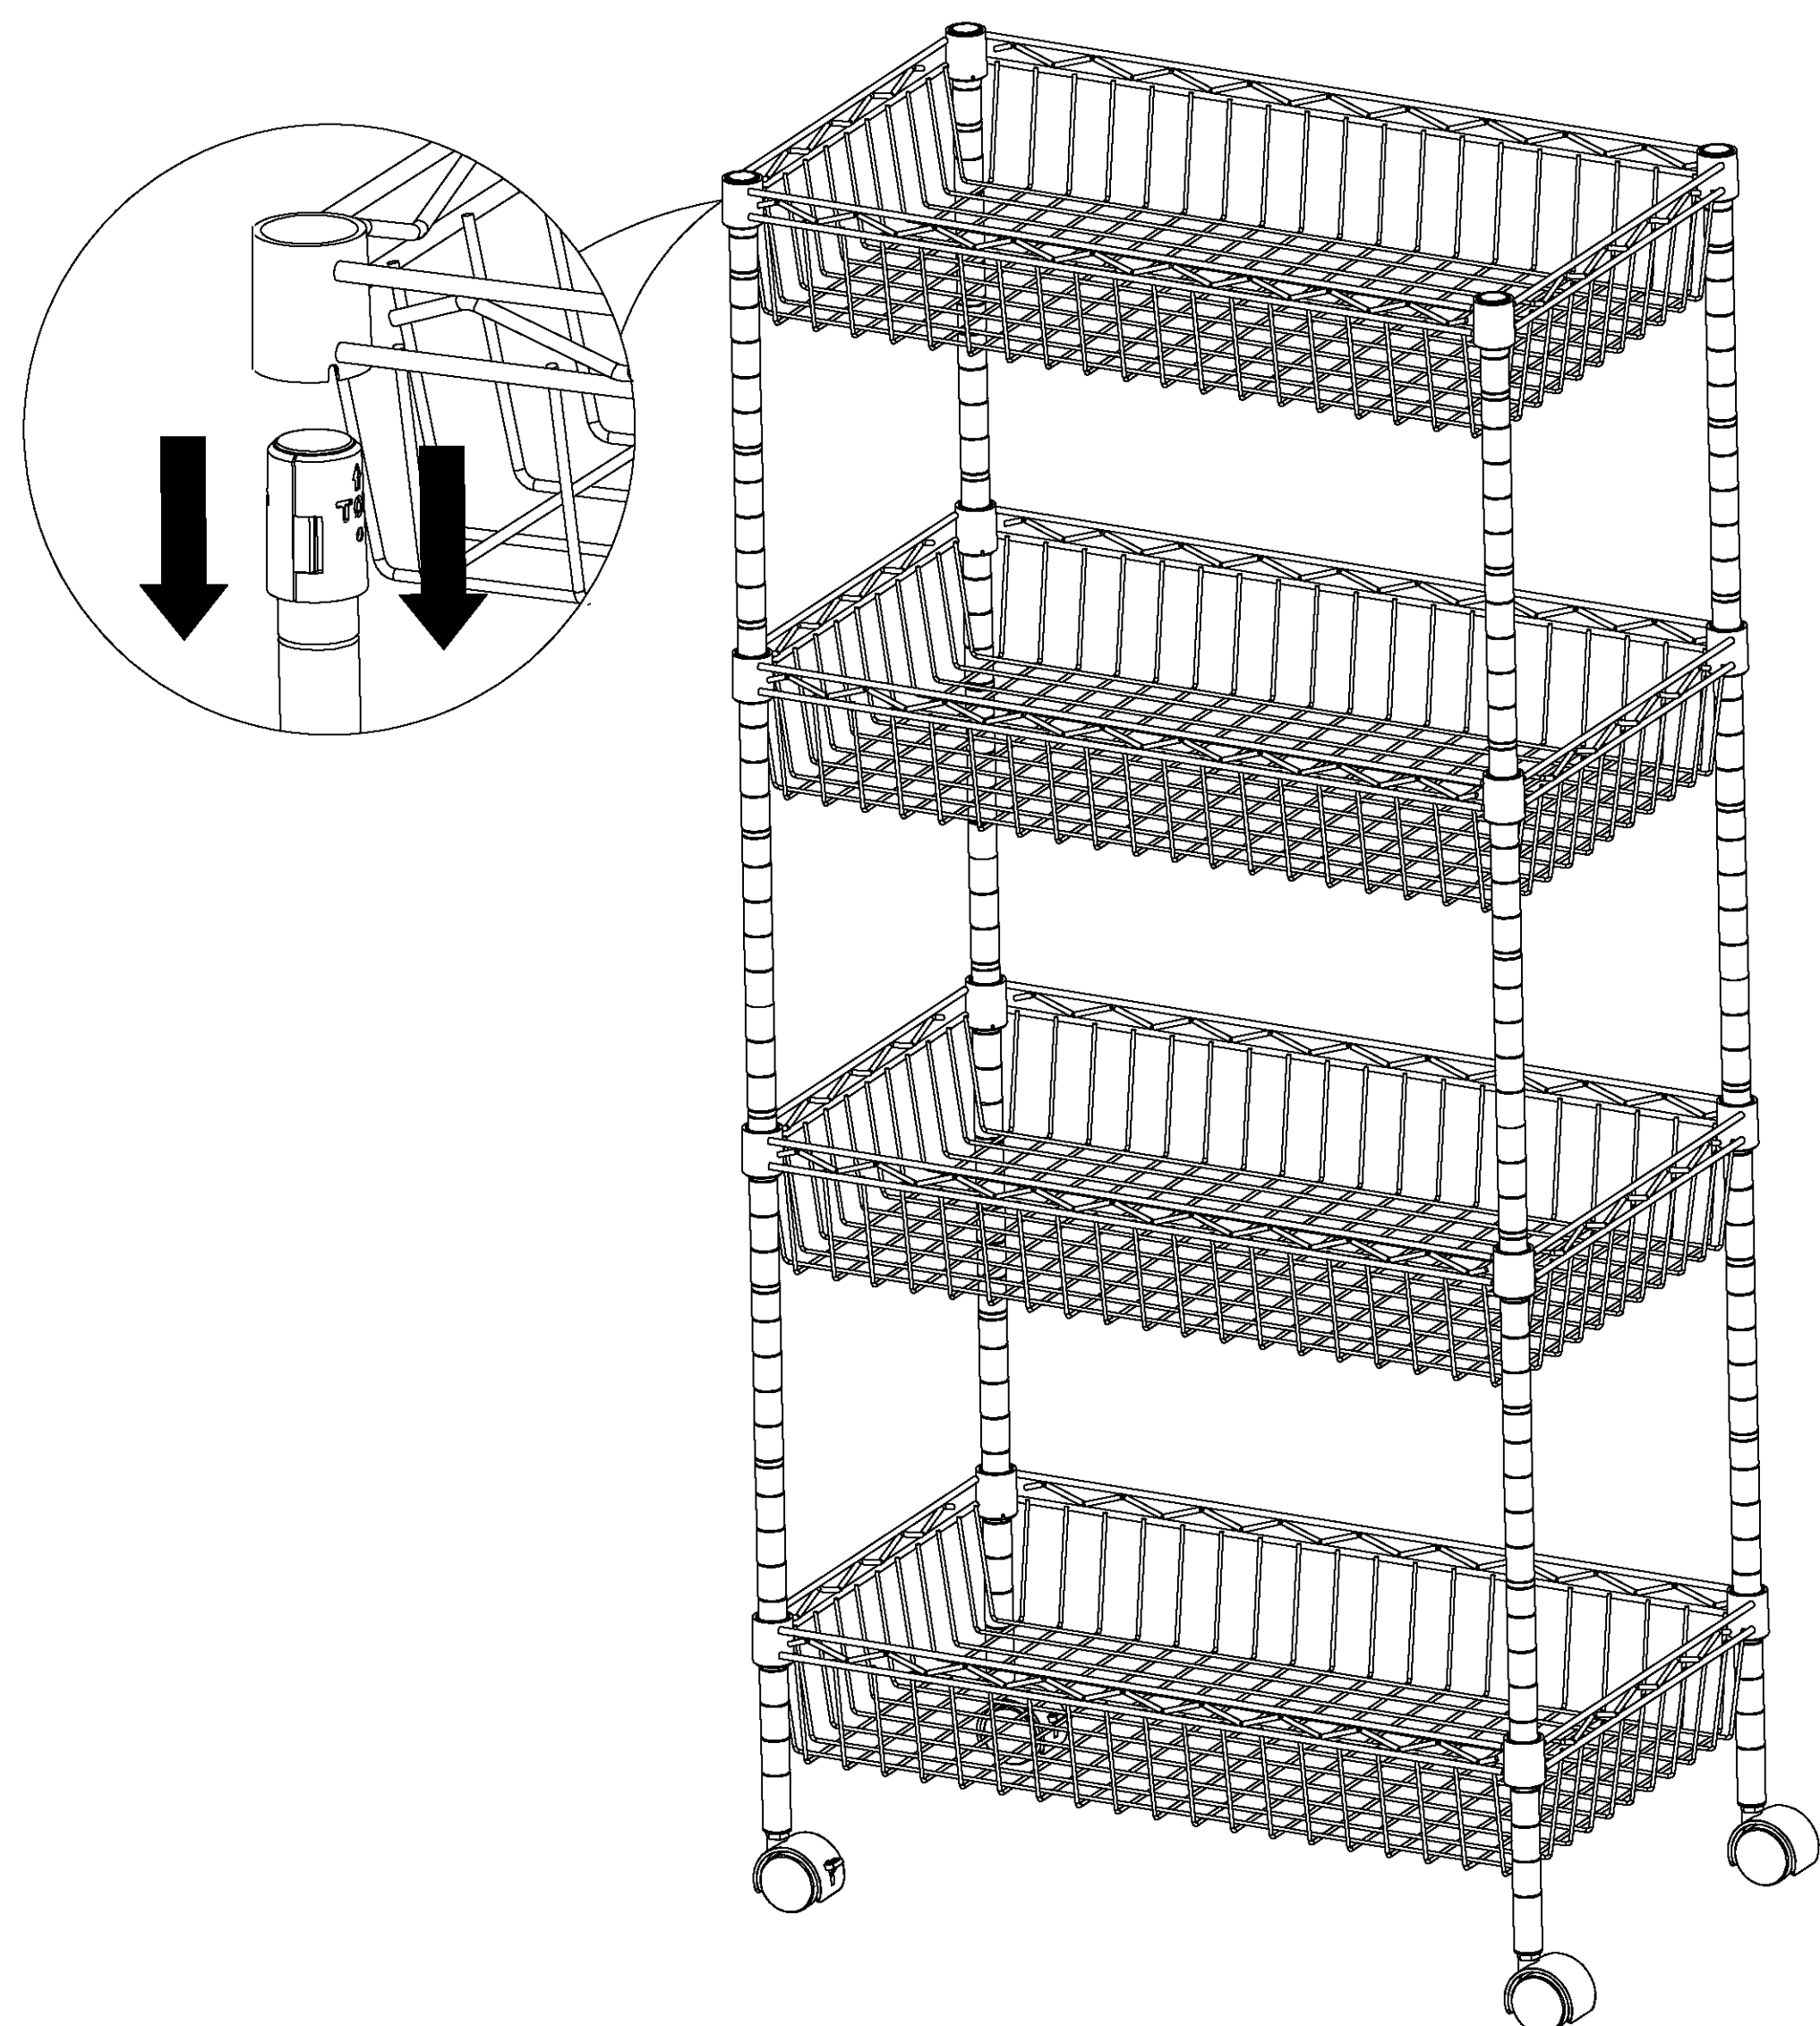

3 Snap plastic clips into the pole grooves of the lower poles at your desired basket height position. Slide down the basket from top down onto the plastic clips.

4 Screw Upper Poles (C) into Lower poles by screw connectors which is already on the upper poles.

5 Repeat the step ③ to assemble the rest of wire baskets at the place you desire.

6 Once all four wire baskets have been installed, pushing firmly down on every basket at corners by rubber mallet to ensure the basket in a place over the plastic clips.
