- Do not cover or restrict airflow to the inlet or outlet grills.
- Never unplug the appliance from the mains until it has been switched off.
- Unplug the fan and store in a dry, safe place when not in use.

COMPONENTS

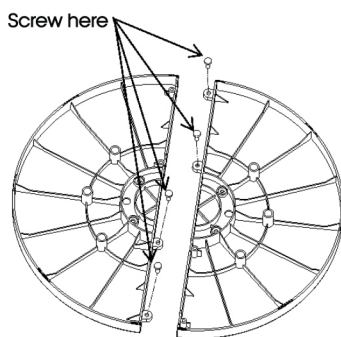

ASSEMBLY INSTRUCTIONS

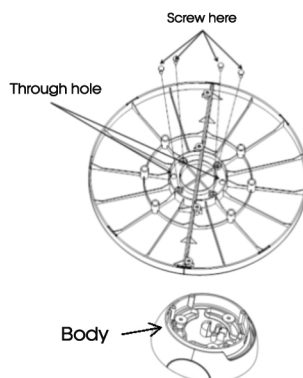

- 1- Unpack and remove the tower fan. Please assemble it correctly according to the order when using it and keep the packaging materials in a safe place for storage.
- 2- Check if the parts in the package match the packing list in the manual.
- 3- Install the front and rear bases (as shown below).

Step1: First, fix the left and right two bases with four self-tapping screws.

Step2: Assemble and combined base 2 through hole on the alignment machine together, and lock the fuselage and base with 4 self-tapping screws.

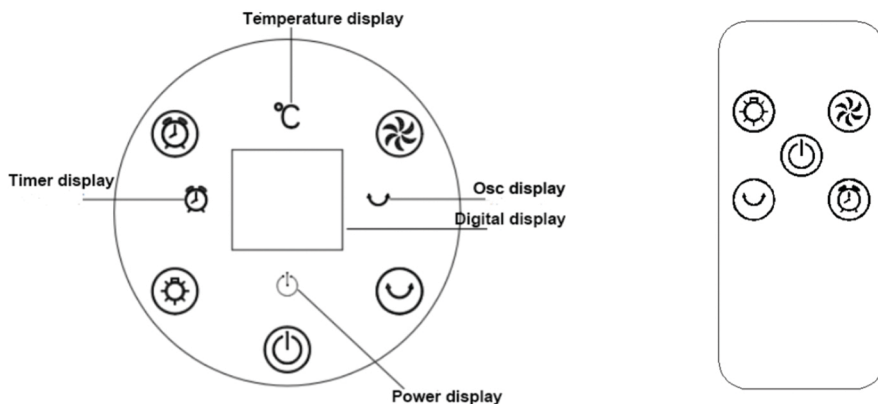

Step 1

Step 2

CONTROL PANEL & REMOTE CONTROL

OPERATING INSTRUCTIONS

- ⏻ Press to turn on the power. Press again to turn off.
- 🌀 Press to select a fan speed. Choose between low, medium and high.
Please note: The default speed is medium.
- 🕒 Press to activate the timer function. Each time the button is pressed the timer will be increased by 1 hour up to a maximum of 12 hours.
- 🌀 Press to start oscillation. Press again to stop oscillation.
- ⚙️ Press to turn off all the lights on the tower fan display panel. Press the button again to light up.
Please note: the screen will automatically turn off after 10 minutes without instruction.

REMOTE CONTROL

NOTE: The remote control buttons perform the same functions as those on the control panel on the unit.

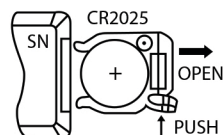

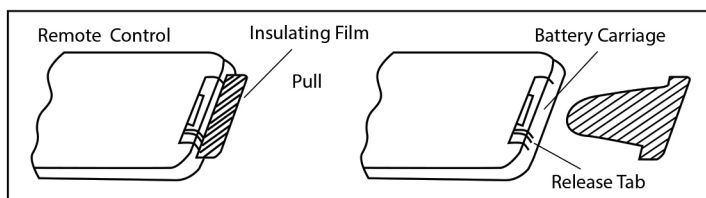

The remote control requires 1x CR2025 3V lithium battery (not included)

IMPORTANT

Follow the instructions of use and the recycle rules given on the battery packaging.

- 1- Open the battery compartment by sliding the cover down.
Insert the battery into the compartment,

observing the polarity in the diagram (see below drawing).
- 3- Close the battery compartment.

CLEANING AND MAINTENANCE

- Always disconnect the cord from the electrical outlet when cleaning your fan.
- Light accumulated dust may be removed from the fan with a soft cloth or vacuum cleaner using the dusting brush attachment.
- Wipe the exterior surfaces of the fan occasionally with a cloth moistened (not dripping wet) with a mild soap solution. Dry the case thoroughly with a soft dry cloth before operating the fan.
- Avoid the use of gasoline, benzene, thinner etc as they may result in damage to the fan.
- Store the fan in a clean dry place when not in use.
