

# Forēe

---

Care Instruction

**Forēe** is handmade from high quality acacia wood, making these plates perfect for dining and decor use. Wood is a beautiful gift from nature. To preserve its beauty and prolong its lifespan, please see the care instructions below.

**DO NOT USE IN DISHWASHER**

Dishwasher detergents and prolonged washing at a high temperature may strip the natural lacquer and damage the wood.

**DO NOT MICROWAVE OR BAKE**

Using in the microwave or oven can damage the natural wood.

**DO NOT USE METAL KNIFE**

Metal knives can leave scratches in the wood and cause liquid to be absorbed, shortening its lifespan.

### **NON-TOXIC & ECO-FRIENDLY**

Handcrafted from 100% solid wood without harsh chemical coating. Safe for everyday use for meals and home decor.

### **HAND WASH ONLY**

Use warm water, gentle dish soap and a soft sponge or cloth to clean. Do not scrub or use abrasive materials.

### **OIL REGULARLY**

Polish the plates with olive oil regularly is recommended as it will protect and preserve the natural wood.
