

Installation Manual

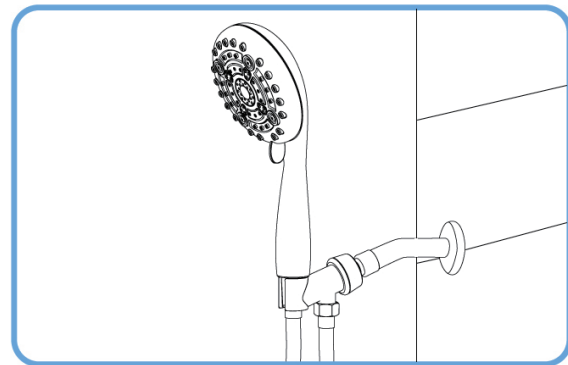

1. The longer side of the shower arm enters the wall (with Teflon), and the other end is connected to the shower bracket.

2. make sure to put a washer into the hex nut of hose and connect it to the bracket

3. make sure to put a washer in to the conical nut of hose and connect it to handheld shower head

4. adjust the brass swivel ball joint of the bracket according to your need

Installing SR SUN RISE shower head

- Fasten the shower holder onto the shower arm and hand-tighten.
- Install the two black rubber washers provided at the two ends of the hose, this will prevent leaks.
- Connect one end of the hose with hex type screw to the shower holder and the other end with longer screw to the hand-held shower.
- Turn on shower and check for leaks. If leaks occur at the water outlet, use additional Teflon tape and carefully tighten with a wrench.
