Instruction manual

Precautions

1.Avoid long-term direct sunlight exposure

2.Stay away from fire

3.keep away from sharp objects

4.Keep infants/children away from assembly parts to avoid choking and suffocation.

5.keep away from corrosive substances

6.Pay attention to avoid over-tightening fasteners, or they may induce cracking within the board.

7.Prevent objects from being damaged by immersion in water

8.Prevent object collision and damage

9.Be careful to avoid collisions

Installation of Cams and Pins

Matters needing attention

Be sure to use the proper screws to avoid damaging the parts

×

Wrong screws can cause the plank to crack

✓

The right screw is the right size

Matters needing attention

(1) When installing the screws in the installation step, the screws do not need to be tightened.

After this installation step is confirmed and the holes are aligned, then tighten all the screws.

(2) If the screws are tightened during the installation process, it will cause problems such as misalignment of the screwholes and misalignment of the board in subsequent installations.
