Description: Cubix LED Surface Mount brings volume and constructive interest to Modern space. Low profile Cubix Surface allows for ceiling surface mounting or suspended installation where a minimal height is desired across the plane of a space. Arrayed in precisely interconnected relationships, these suspended cubes are joined to each other by a shared leg on each frame. As single fixtures or clustered in arrangements across larger spaces, Cubix Surface expands the utility and aesthetic application of the Cubix family, along with the [Cubix LED Pendant](#).
