5. product installation instructions:

(1) Introduction of components:

This product is divided into two parts: main body and accessories.

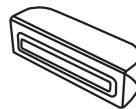

Door panel X1

Panels X5

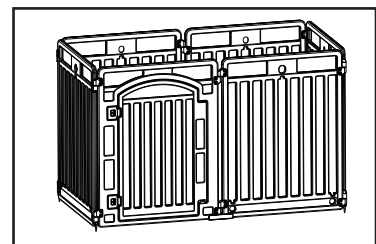

Nails X6

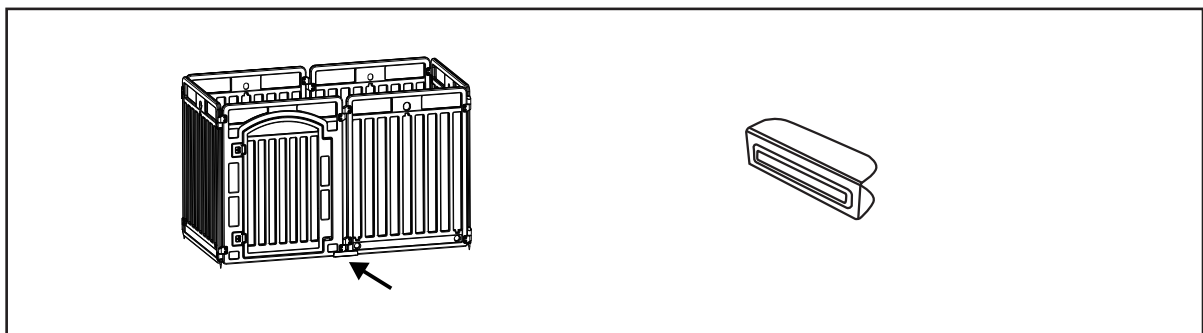

Anti-skid pad X2

(2) Installation instructions:

- ① After unpacking, check all the main body and parts.
- ② First place the door panel vertically on the floor. NOTE: The door opens outward! Take out any panel and place it at 90 degrees to the door. Place the side of the panel with the protruding hinge close to the side of the door with the square hole, and then insert the hinge into the hole. Install the three panels in sequence and adjust the shape.

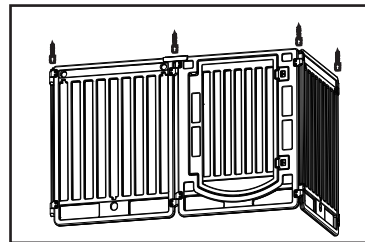

- ③ Install the anti slip pad we prepared to make the fence more stable.

④ If you want to use it outdoors, follow the steps 1 and 2 to install, turn the fence over, with the bottom facing up, and insert the nails into the four corner holes at the bottom.

NOTE: The bottom of the nail is not round, one side is flat and the other is arc, please align it and insert it! Then carefully turn the fence over and press the four corners of the fence to firmly insert it into the soil.

(3) Precautions for use:

1. The pet playpen contains nails. Please don't let children touch it during installation, otherwise it may be injured.
2. This pet playpen is suitable for small and medium-sized pets, and not suitable for pets that are too big or have a grumpy personality.
3. After using it outdoors, please check the number of nails and clean the suction cup at the bottom for the next use.
