Step 1

Unpack and place all parts on a clean, non-marring surface.

Step 2

Place the Seat Frame (A) facedown on a clean, non-marring surface.
Attach the Upper Leg Panel (B) to the Seat Frame(A) using Bolts (①) and the Allen Key(③) as shown above.

Do not fully tighten the Bolts.

Caution: Please don't place your hands between the gaps to avoid injury.

Step 3

First, insert the Lower Leg Panel (C) into the Upper Leg Panel (B)
Then, attach the Lower Leg Panel (C) into the Seat Frame (A) using Bolts (①) and the Allen Key(③).

Do not fully tighten the Bolts.

Step 4

Do not fully tighten the Screws.

Step 5

Place the Loveseat onto a flat, level surface.

Then EXERT pressure floorwards onto the Loveseat with both hands.

This pressure will help the Loveseat reach full alignment at all joints.

In a sequential manner, gradually tighten all Bolts screws and at all joints until evenly secured.

Inspect the Loveseat and make sure all parts are adequately connected.

Adjust the Levelers until the Loveseat is level with the ground.

To adjust the Levelers, get assistance from an adult partner to lift/lean and hold the Loveseat while you are working.

Step 6

Place the Loveseat on a LEVEL SURFACE.

Inspect it and make sure all parts are adequately connected.

Gently and gracefully, sit into to the Loveseat.

This will help to align all the parts at all joint areas.

Then get off the Loveseat and proceed to tighten the Bolts and Screws in a sequential manner.

When tightening the Bolts and Screws tighten sequentially.

DO NOT tighten any Bolt or Screw fully and then move on towards the next one.

If there are any wobbles after tightening, loosen the Bolts and Screws and execute this same process.

Place the Seat Cushion(D) and Back Cushions(E) onto the Loveseat.

With the help of your adult partner, turn the Loveseat over and Attach the velcro of the Seat Cushion(D) to the Loveseat as shown in the above picture.

Again with the help of your adult partner, turn the Loveseat right side up.
