Attention!

- Always carry traction board when off-road driving.
- Don't use too much throttle and spin tires when stuck.
- Grab your boards before driving off.

HOW TO USE

1. Lower tire pressures to suit conditions.
2. Shovel around tire and vehicle to remove debris.
3. Wedge boards under tires as far as possible.
4. Have boards poking out at 45-degree angle.
5. Maintain a steady throttle until you feel the vehicle rise-up.
