STEP 1

Remove the mounting bracket from the Ceiling Canopy(A).
Mark the drilling position on ceiling with the help of the mounting bracket.
Drill holes on the marks and stick the expansion anchors into the holes.
Mount the mounting bracket on the ceiling.

Please refer to the actual product for color and shape. The drawings are only for reference for installation steps and methods.

STEP 2

Remove the Arm Support Plate(C) from the bottom of the Middle Lamp(E).

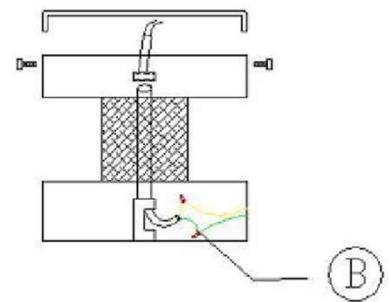

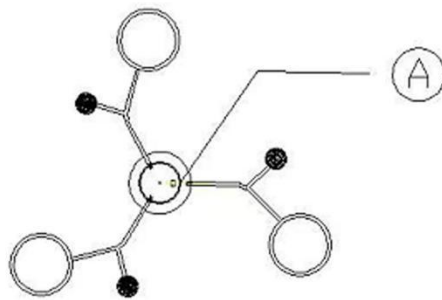

STEP 3

Connect the Lamp Arm(D) to the Arm Support Plate(C) in turn, and thread the wires of the lamp arms into the Arm Support Plate(C).

In the arm support plate (C), the same colored wires are connected together.

Take out the black and white leads.

Connect the white wire to the blue wire, and the black wire to the brown wire.

STEP 4

The black and white leads pass through the holes at the bottom of the Arm Support Plate(C).

Reinstall the Arm Support Plate(C) to the bottom of the Middle Lamp(E).

Screw in threaded silver fittings.

STEP 5

Install Wooden Pillar(B) and Ceiling Canopy(A).

Pass the black and white wires through the holes on the bottom of the Ceiling Canopy(A).
Screw in the nut to secure.

STEP 6

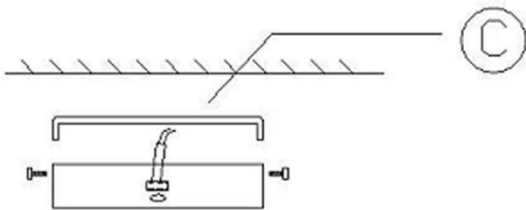

Hold the fixture close to ceiling.

Connect the wires of the lamp body to the reserved wires at home.

The red/black wire is connected to the live wire, the blue/white wire is connected to the neutral wire.

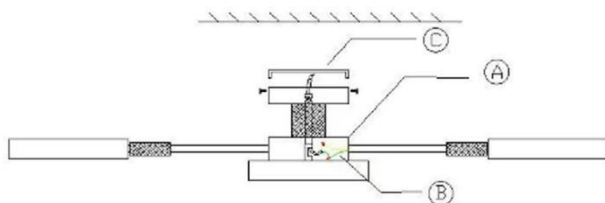

STEP 7

Install the Ceiling Canopy(A) to the mounting bracket on the ceiling and fix it with screws.

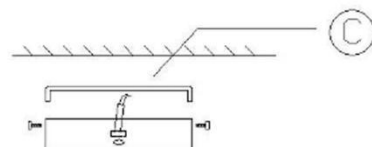

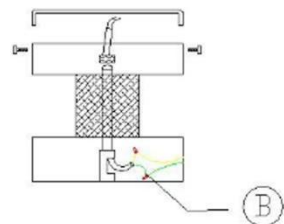

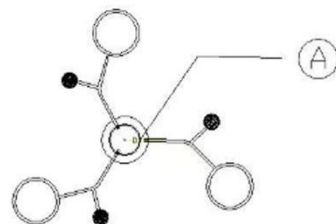

Installation instructions

Model: 9264-4/5/6/7

- A: Install the lamp arm on the lamp body first.
