This modern buffet is magnificent in every conceivable way. Its sleek lines are adorned in finely tailored leather atop a brass platform base. Proving that all that glitters is not gold, its two doors with brass finished handle bar pulls open to reveal a luxurious interior fully lined in polysuede with meranti wood trim with two adjustable shelves in each of the two side storage compartments, one adjustable shelf in the center storage compartment and a tray drawer with a gold leather front and ball bearing glides for smooth operation. Masterfully crafted from meranti wood solids and wood products, it has a brass door lock that operates using a brass key with a matching gold leather tassel.
