

Installation steps:

- 1-2. Pass the lamp arm through the hole of the canopy, and then tighten it with a nut
3. Connect the lamp cap wire of the same color with the lead wire of the same color
4. Drill a hole of appropriate size in the wall, and then insert the expansion rubber plug into the hole
5. Fix the hanging board on the junction box with screws
6. Reinforce the hanging board with screws
7. Connect the main wire on the lamp body to the wire reserved on the junction box, and then plug the excess wire into the junction box
8. Cover the lamp body on the hanging plate
9. Pass the screw through the side hole of the canopy, and then twist it into the bracket
10. Put the lampshade into the lamp holder
11. Twist the lamp holder ring on the lamp holder (fix the lampshade)
12. Install the bulbs. (Bulb not included)

Notice:

1. Before installation, please check whether the parts are complete and whether the lamps are in good condition.
2. Cut off the power supply before installation, and then perform wiring.
3. Install the lamp body first, and then install the power supply.
4. Installation and maintenance must be carried out by professional and technical personnel.
