

MATERIAL GUIDE

Manufactured Wood Product Care

Each piece of manufactured wood furniture is designed to combine functionality with aesthetic appeal. Careful maintenance will preserve its beauty and longevity.

- Clean with a soft, damp cloth. Use mild soap if needed.
- Avoid harsh chemicals, abrasive cleaners, or soaking.
- Protect surfaces from direct sunlight and heat to prevent warping or fading.
- Use coasters for beverages and placemats for hot items.
- Dust regularly with a dry cloth.
- Promptly wipe spills to avoid staining or damage.
- Keep furniture in a low-humidity environment to prevent swelling or warping.
