

Pendant light Installation Steps:

1. Thread the main wire through the cloth cover, the lamp holder, and the round tube. Then pass it through the hanging chain and the ceiling plate, and finally through the figure-eight clasp.
2. Secure the cloth cover and lamp holder tightly onto the threaded connector of the lighting fixture with the round tube.
3. Install the light source (bulb not included).
4. Bend the light guide plate and place it inside the cloth cover.
5. Snap the movable lock buckle into the hanging ring and tighten it securely.
6. Fix the mounting bracket to the junction box with screws.
7. Connect the main wire and the ground wire of the lamp body to the cables reserved on the junction box.
8. Install the ceiling plate onto the mounting bracket, and then tighten the decorative nut to secure it.

Ceiling light Installation Steps:

1. Remove the hanging ring.
2. Insert the ceiling plate into the threaded connector of the round tube, add a gasket, and tighten it with a nut.
3. Fix the mounting bracket to the junction box with screws.
4. Connect the main wire and ground wire of the lamp body to the cables reserved on the junction box.
5. Install the ceiling plate onto the mounting bracket, and then tighten the ball nut to secure it.

Precautions for Installation:

Check Components & Lamp:

Ensure all components are complete and the lamp is intact before installation.

Disconnect Power First:

Prior to installation, disconnect the power supply before proceeding with wiring.

Installation Sequence:

Install the lamp body first, followed by the power supply.

Professional Requirement:

Installation and maintenance must be carried out by professional technicians.
