Bluetooth LED Strip Lights

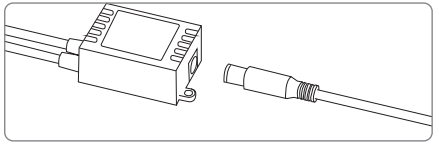

v2.0

How to Connect?

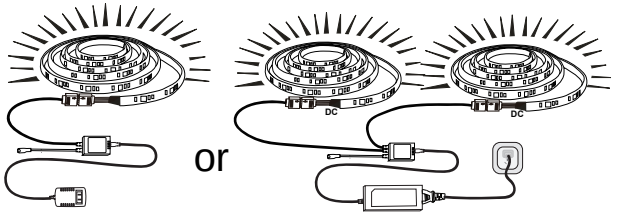

Step1 : Connect LED Controller with LED Light Strip.

Step2: Connect the LED Controller with power supply.

Step3: Plug in the power supply.

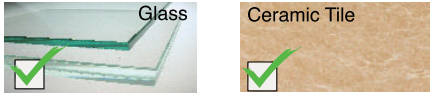

WARNING

⚠ Test the lights before installing. Contact us if defect.

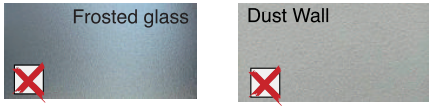

⚠ Unroll the lights strip before power on. Avoid heat damage the strip.

How to Install?

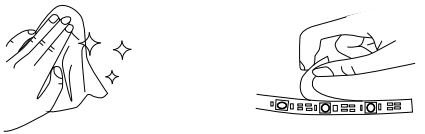

1. Stick on the smooth, dry, clean surface.

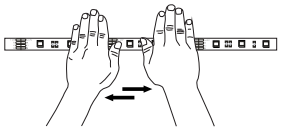

2. Any rough and dusty surface can not be sticked.

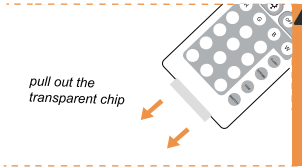

3. Clean the surface, dry out and stick it.

4. Press the whole strip lights repeatedly with force on blank area.

5. Pull out the transparent chip

⚠ *Please pull out the transparent chip from the bottom of the IR remote to ensure that the battery is powered properly.*

REMOTE CONTROL

1. One IR remote is included in package.
2. Please pull out the plastic chip in bottom first to power on the remote.
3. You can insert the chip back when unused to get longer battery life.
4. Aim to the controller directly within 6 meters to ensure signal is ok.
5. There are keys for "ON/OFF/Brightness up/Brightness down/Static colors/ Dynamic Modes" and so on. Just try it.

PAIR TO APP

1. Scan the QR code on the controller box,download APP and install on your phone. Google play and Apple app store also available.
2. Turn on the Bluetooth on your phone.
3. Open the APP, tap the "+" icon in the top right corner and search new device.
4. APP will show the device found, just add it.
5. Tap the device icon to enter control panel.

ATTENTION

1. Use the product with provided power adapter and control box only.
2. Do NOT extend more strip to avoid overload which is unsafe.
3. Avoid this product use in humid environment.
4. Please turn off the power and unplug the adapter when the strip light will not be used for a long time.

TROUBLE SHOOTING

APP can not find the device.

1.Make sure the phone bluetooth is on.
2.Allow the permissions of APP. APP needs them to connect the device.
3.Check the strip light is on.Or use remote control to check light is working.
4.Kill APP, turn off bluetooth and turn on bluetooth again, then start APP to add device again.
5.Ensure phone within 4ft of product without obstructions when connecting.
6.Your phone may be incompatible with the APP, try another phone.

All lights don't work.

1.Check whether the power is on.
2.Press ON and press "brightness up" multi times on remote.
3.Connect APP and turn on light and turn up brightness.
Reinstall all parts.

Some light beads keep off or fail working.

1.Contact the seller for more help.
